## Nonprofits That Help Nonprofits

Where do nonprofits turn when they're in need? To other nonprofits, of course. Read about the organizations that are helping other nonprofits get the technical assistance and professional services they need.

## NASCONet Project

GuideStar would like to thank the more than 1,600 nonprofit organizations that expressed their support for the NASCONet one-stop on-line state registration project.

## A Summer Reading List

April's Question of the Month asked newsletter readers what professional or nonprofit information sources they regularly read or consult. [Take a look](#) at a list of the publications and sites that were mentioned the most.

## Looking for a Web Development Volunteer?

Need help with a Web site for your organization? GuideStar works with MSDN Online, a Microsoft-sponsored community of Web developers, to connect nonprofits with Web developer and design volunteers.

Any organization that has completed the GuideStar Information Form can place a free classified ad for assistance with its Web site. All Web development ads are listed on GuideStar and the MSDN Online Volunteer Kiosk.
