COALITION FOR NATIONAL TRAUMA RESEARCH

fka Trauma Institute of San Antonio (TRISAT)fka National Trauma Institute
San Antonio, TX
www.nattrauma.org
(210)455-8038

MISSION

CNTR’s mission is to enhance trauma research in the U.S. by advocating for sustainable research funding commensurate with the burden of disease; coordinating research efforts across professional organizations that span the continuum of injury care; and strengthening the infrastructure for multi-center investigation.

Coordinating Center for Trauma Research

Population(s) Served:
General/Unspecified

CNTR reviews potential projects for their relevance to its mission and considers study fit with available sources of funding and funding mechanisms, institutional support, investigator track record, and strength of the initial study protocol. For accepted proposals, CNTR serves as the primary contractor, preparing and submitting the grant application, and conducting all study management including sub-contracting, reporting and compliance.

Notes: We count the number of investigators and trauma care stakeholders who collaborate in our proposals and studies (whether funded or not), conference attendees, and our board and committee members.
CHARTING IMPACT

What is the organization aiming to accomplish?

The Coalition for National Trauma Research imagines a world in which a horrific car crash does not result in immediate death or a lifetime of disability, a gunshot wound can be repaired with minimal long-term damage to the victim, and U.S. soldiers can survive blast injuries and go on to lead healthy and productive lives. In CNTR's world, the personal and societal costs of traumatic injury will be minimized because superior treatments will stop hemorrhage before victims bleed to death, new protocols will eliminate secondary infections that often lead to more complications than the original injury, and repair of damaged organs and tissues will be so complete that survivors will be able to resume their work and avoid long-term disabilities that drain personal bank accounts and strain social safety nets.

What are the organization's key strategies for making this happen?

Coordinating Federal Advocacy Activities
CNTR sponsors an annual Trauma Research Advocacy Day in Washington. On this day, trauma surgeons and trauma survivors visit their legislators to make requests for increased investment in trauma research.

Preparing and Submitting Grant Applications
CNTR works closely with principal investigators (PIs) to write research pre-proposals and full proposals in response to federal funding announcements--helping to get much-needed research dollars into the hands of trauma researchers across the country.

Managing Large, National, Multi-site Studies
Once funding has been granted, CNTR serves as the primary contractor, taking on the full array of study management work in order to free investigators and institutions to focus on the research.

Supporting Projects with Geo-Spatial Elements
With a GIS specialist on staff, CNTR offers state-of-the-art geo-spatial mapping expertise for studies with injury location, transport distance, and time elements.

Sharing and Managing Research Data
CNTR is the architect and manager of the National Trauma Research Repository (NTRR). The NTRR stores study data produced in the course of trauma clinical research and makes it available for subsequent use, increasing its utility. NTRR-NTI.org.

What are the organization's capabilities for doing this?

CNTR has a dedicated team of seasoned research administrators who manage studies from start to finish—from hypothesis development and aim setting, through proposal writing, grant acquisition, project management, publication, presentation and data sharing. We have many years' experience in dealing with Department of Defense funding vehicles, which are opaque and time-consuming. Our support across the entire grant lifecycle makes the trauma investigator's job easier.

What have and haven't they accomplished so far?

As a coordinating center for federally-funded research, CNTR (previously as the National Trauma Institute) has partnered on trauma studies with principal investigators since 2006. Projects under NTI’s and CNTR’s management have engaged more than 600 investigators and trauma care stakeholders across the U.S. and drawn more than $90 million in federal and state funding to date.

Here's a summary of our current projects as of 05/01/23:

Multi-institutional Multidisciplinary Injury Mortality Investigation in the Civilian Pre-Hospital Environment (MIMIC)
- Study of 3,000 pre-hospital deaths to determine survivability

National Trauma Research Action Plan (NTRAP)
- Define a Research Agenda by conducting Delphi consensus surveys in 11 focus areas to determine high-priority research questions
- Define Optimal Patient Reported Outcomes Measures
- Identify regulatory challenges and create an investigator toolkit to overcome them

Implementation of VTE Prevention Education (CLOTT Part 3)
- Implement a VTE Prevention nurse education program at 9 trauma centers

Plasma Resuscitation without Lung Injury (PROPOLIS)
- Study to improve burn patient care, using pathogen-reduced plasma (PRP), an FDA-approved blood component that has undergone special treatment to reduce the risk of disease transmission, as part of the resuscitation plan in the initial 24 hours of treatment

Injury Research Engagement Project (I-REP) Community Engagement
- This project is establishing a patient and caregiver Injury Research Engagement Panel (I-REP) that will partner with trauma researchers in the conceptualization and conduct of their research. The I-REP will improve the quality and relevance of studies by streamlining and simplifying the process of engagement with patients.

An AI-Based Multi-Functional Hand-Held Lumify Ultrasound for Automatic and Intelligent Quantitative Assessment of Lung Injuries in a Mass-Casualty Incident (LUMIFY)
- Study of ultrasound use for better assessment of lung injuries

Adjuvant Immunotherapy to Reverse Immunosuppression in Burn-Injured Patients with Antibiotic-resistant Infections

A randomized clinical trial of scenario planning for older adults with serious injury

National Trauma Research Repository--Integration into FITBIR
- Data population and integration of this clinical trauma research database into the Federal Interagency Traumatic Brain Injury Repository

Summit on the Advancement of Focused Equity Research in Trauma (SAFER-Trauma)
- A meeting to help the trauma research community identify and characterize current gaps in trauma health disparities research, define funding mechanisms and pathways for collaboration, and outline a research agenda targeted at reducing and eliminating health disparities in trauma care.

Design for Implementation: The Future of Trauma Research and Clinical Guidance
- A three-conference series aiming to improve the translatable research results into clinical guidance

EXECUTIVE DIRECTOR

Dr. Michelle Price

Michelle Price, PhD, is Executive Director of the Coalition for National Trauma Research. She oversees all of the research conducted by CNTR in partnership with trauma centers around the country. Dr. Price has been a principal or co-investigator on projects funded by the U.S. Department of Defense, the Robert Wood Johnson Foundation, the National Highway Traffic Safety Administration and other agencies. Prior to joining CNTR in 2016, she was a faculty member at the University of Texas Health Science Center at San Antonio for eighteen years. She maintains active collaboration with the UT Health trauma faculty as an Adjunct Associate Professor. Her research interests include injury prevention and control, trauma systems, data sharing and regulatory strategies for conducting research in emergency settings. She has a bachelor’s degree in psychology and a Master of Education from the University of Houston, and a doctorate from the University of Texas School of Public Health.

### BOARD LEADERSHIP PRACTICES

GuideStar worked with BoardSource, the national leader in nonprofit board leadership and governance, to create this section, which enables organizations and donors to transparently share information about essential board leadership practices.

#### BOARD ORIENTATION & EDUCATION

Does the board conduct a formal orientation for new board members and require all board members to sign a written agreement regarding their roles, responsibilities, and expectations?

| Yes |

#### CEO OVERSIGHT

Has the board conducted a formal, written assessment of the chief executive within the past year?

| No |

#### ETHICS & TRANSPARENCY

Have the board and senior staff reviewed the conflict-of-interest policy and completed and signed disclosure statements in the past year?

| Yes |

#### BOARD COMPOSITION

Does the board ensure an inclusive board member recruitment process that results in diversity of thought and leadership?

| Yes |

#### BOARD PERFORMANCE

Has the board conducted a formal, written self-assessment of its performance within the past three years?

| No |
Organizational Demographics

Who works and leads organizations that serve our diverse communities? This organization has voluntarily shared information to answer this important question and to support sector-wide learning. GuideStar partnered on this section with CHANGE Philanthropy and Equity in the Center.

Leadership

The organization’s leader identifies as:

- **Race & Ethnicity**: White/Caucasian/European
- **Gender Identity**: Female, Not transgender
- **Sexual Orientation**: Heterosexual or Straight
- **Disability Status**: Person without a disability

### Disability

*No data.*

*We do not display staff or senior staff disability information for organizations with fewer than 15 staff.*
Equity Strategies  Last Updated: 04/14/2023

Candid partnered with Equity in the Center - a project that works to shift mindsets, practices, and systems within the social sector to increase racial equity - to create this section. Learn More

Data

✓ We analyze disaggregated data and root causes of race disparities that impact the organization's programs, portfolios, and the populations served.

✓ We have long-term strategic plans and measurable goals for creating a culture such that one's race identity has no influence on how they fare within the organization.

Policies and processes

✓ We seek individuals from various race backgrounds for board and executive director/CEO positions within our organization.

✓ We have community representation at the board level, either on the board itself or through a community advisory board.

✓ We engage everyone, from the board to staff levels of the organization, in race equity work and ensure that individuals understand their roles in creating culture such that one's race identity has no influence on how they fare within the organization.

</tbody>
</table>

This organization was not included in the Office of Foreign Assets Control Specially Designated Nationals (SDN) list.

On September 8, 2011, the IRS issued regulations which eliminated the advance ruling process for a section 501(c)(3) organization. Note that this code cannot be derived in some cases (e.g., supporting organizations for which ‘type’ can’t be determined).

RS Revenue Procedure 2011-33 allows grantors to rely on third-party resources, such as GuideStar Charity Check, to obtain required Business Master File (BMF) data concerning a potential grantee’s public charity classification under section 509 (a) (1), (2) or (3).

GuideStar Charity Check Data Sources

- GuideStar acquires all IRS data directly from the Internal Revenue Service.
- IRS Publication 78 (Cumulative List of Organizations) lists organizations that have been recognized by the Internal Revenue Service as eligible to receive tax-deductible contributions.
- IRS Internal Revenue Bulletin (IRB) lists changes in charitable status since the last Publication 78 release. Between the release of IRS Publication 78 and the subsequent IRS Internal Revenue Bulletin, the IRB date will reflect the most recent release date of IRS Publication 78.

- The IRS Automatic Revocation of Exemption List contains organizations that have had their federal tax-exempt status automatically revoked for failing to file an annual return or notice with the IRS for three consecutive years.
- The Foundation Status Code is a value derived by mapping the codes found on the 990PF filing instructions to the corresponding codes in the IRS BMF. Note that not all codes are able to be mapped due to insufficient data.
- The Office of Foreign Assets Control (OFAC) Specially Designated Nationals (SDN) list contains organizations that are owned or controlled by targeted individuals, groups, and entities, such as terrorists or narcotics traffickers. Their assets are blocked and U.S. persons are generally prohibited from dealing with them.
