Global Health Council

Population(s) Served:
General/Unspecified

GHC ensures the widest possible representation of the global health community and designs its services to respond to the evolving needs of our membership. Organizational membership is open to the non-profit and for-profit sectors including NGOs, faith-based organizations, corporations and academic institutions; government, foundations and other donors and agencies. GHC recognizes the critical role individuals play in successful global health advocacy. Membership is available to individuals working, studying or interested in the area of global health. The membership of institutions and individuals based in the Global South is actively encouraged. GHC tailors its membership levels to reflect the variety and diversity of its constituency.
RESULTS

Number of meetings with policymakers or candidates

Population(s) Served: No target populations selected

Related program: Global Health Council

Notes: Global Health Council hosts more than 100 meetings with policymakers, advocates, and other stakeholders to advance global health each year.
CHARTING IMPACT

What is the organization aiming to accomplish?

GHC will work with the U.S. Government and other global bodies on behalf its members to influence global health policies and resource allocation decisions, and services. GHC will build on the organization's history, profiting from lessons learned and taking new directions suited to an evolving environment and the changing needs of its members. Moving forward the emphasis will be on responsiveness and accountability to the membership, accompanied by consistent, transparent dialogue with the members. The Board has identified the following year-one priorities:

Strategic Goals and Objectives 2014–2016:

GOAL 1: Raise Visibility, Influence Policy and Expand Investment for Global Health
1. Advocate for expanded funding
2. Promote evidence-based policies
3. Facilitate and encourage member engagement
4. Increase visibility and political support
5. Build partnerships to support similar efforts

GOAL 2: Increase Member Effectiveness, Sharing and Partnership Across the Global Health Community
1. Facilitate dialogue, share best practices and increase access to resources
2. Represent the full range of interests of the global health community
3. Nourish global health thought leadership, networking and visibility
4. Encourage partnership with and participation by the Global South

GOAL 3: Achieve Organizational and Financial Efficacy for Sustained GHC Impact
1. Develop and maintain a sustainable resourcing model
2. Create an effective, efficient member support model
3. Optimize member engagement
4. Grow and maintain member ownership of GHC
5. Ensure GHC's status as a "state-of-the-art" alliance

What are the organization's key strategies for making this happen?

OUR MEMBERSHIP APPROACH
GHC ensures the widest possible representation of the global health community and designs its services to respond to the evolving needs of our membership. Organizational membership is open to the non-profit and for-profit sectors including NGOs, faith-based organizations, corporations and academic institutions; government, foundations and other donors and agencies. GHC recognizes the critical role individuals play in successful global health advocacy. Membership is available to individuals working, studying or interested in the area of global health. The membership of institutions and individuals based in the Global South is actively encouraged.

GHC tailors its membership levels to reflect the variety and diversity of its constituency.

What are the organization's capabilities for doing this?

Convening: Networking, partnership and coordination
Communicating: Promoting global health research and best practices, thought leadership and dialogue
Constituency-Building: Dialogue, advocacy and policy development around critical global health issues

What have and haven't they accomplished so far?
- GHC has many members we have in each category of membership: NGO, corporate, individual.
- Hosted and participated in meetings, discussions, roundtables, coalitions, etc. which foster collaboration with, and best practices by, private sector stakeholders. GHC recently hosted the Global Health Landscape Symposium in December 2017, which drilled down on barriers and best practices to address changes in the global health landscape. Over 200 attendees participated. In the advocacy space, GHC currently manages five roundtables: GHC Budget Roundtable; GHC Post-2015 Health Priorities Roundtable; Global Health Security Roundtable; Maternal, Newborn and Child Health Roundtable; and the Non-Communicable Diseases (NCDs) Roundtable.
- Amplifying the impact of the global health community via sign-on letters and congressional office visits. GHC initiated 10 sign on letters since 2015, and more than half of them have been circulated in 2016 alone.
- Monitoring diversity as it relates to Board candidates and event speakers. GHC has always welcomed a diverse group of global health advocates and experts to our Board of Directors, and among our panelists at global health events.

Foundation Code Description
Organization which receives a substantial part of its support from a governmental unit or the general public

This organization was not included in the Office of Foreign Assets Control Specially Designated Nationals (SDN) list.

On September 8, 2011, the IRS issued regulations which eliminated the advance ruling process for a section 501(c)(3) organization. Learn more

* The Foundation Status Code is the code that foundations are required to provide for each grantee annually on part XV of Form 990PF. Note that this code cannot be derived in some cases (e.g., supporting organizations for which ‘type’ can’t be determined).

IRS Revenue Procedure 2011-33 allows grantees to rely on third-party resources, such as GuideStar Charity Check, to obtain required Business Master File (BMF) data concerning a potential grantee’s public charity classification under section 509 (a) (1), (2) or (3).

GuideStar Charity Check Data Sources
- GuideStar acquires all IRS data directly from the Internal Revenue Service.
- IRS Publication 78 (Cumulative List of Organizations) lists organizations that have been recognized by the Internal Revenue Service as eligible to receive tax-deductible contributions.
- IRS Internal Revenue Bulletin (IRB) lists changes in charitable status since the last Publication 78 release. Between the release of this Publication 78 and the subsequent IRS Internal Revenue Bulletin, the IRB date will reflect the most recent release date of IRS Publication 78.
- IRS Business Master File lists approximately 1.7 million nonprofits registered with the IRS as tax-exempt organizations.
- The IRS Automatic Revocation of Exemption List contains organizations that have had their federal tax-exempt status automatically revoked for failing to file an annual return or notice with the IRS for three consecutive years.
- The Foundation Status Code is a value derived by mapping the codes found on the 990PF filing instructions to the corresponding codes in the IRS BMF. Note that not all codes are able to be mapped due to insufficient data.
- The Office of Foreign Assets Control (OFAC) Specially Designated Nationals (SDN) list contains organizations that are owned or controlled by targeted individuals, groups, and entities, such as terrorists or narcotics traffickers. Their assets are blocked and U.S. persons are generally prohibited from dealing with them.
