Patient Support

Population(s) Served:
Males

ZERO Prostate Cancer’s patient navigation program, ZERO360, is a free service to help patients access benefits they are entitled to, find supplemental insurance, locate financial resources from charitable and other organizations, and find emotional support. With ZERO360, patients can receive assistance for finances such as utilities, travel and lodging for appointments, medication, and more.

ZERO believes in the importance of peer-to-peer support programs to help improve mental health outcomes for men diagnosed with prostate cancer and their loved ones. Peer-to-peer support programs at ZERO come in multiple forms including online and location specific. These groups allow men and caregivers affected by prostate cancer to gain emotional support by providing a safe place to discuss concerns, feelings and hardships experienced due to prostate cancer.

Advocacy

Population(s) Served:
Males

ZERO has a strong presence on Capitol Hill and in local communities across the nation, advocating on behalf of prostate cancer patients and survivors for access to care and new treatment options. Every year, we bring dedicated advocates to Washington, D.C. to collaborate and share their prostate cancer stories with their legislators.

Research

Population(s) Served:
Males

ZERO directly supports cutting-edge research that offers the best return on investment, with a track record of expediting life-saving treatments from the laboratory to patients.

-- ZERO activates local communities and raises critical funds and awareness. Additionally, we reach men and families through our endurance and golf event series. Through the ZERO cancer Research Fund, we provide grants toward promising research that will accelerate new treatment options and distinguish aggressive from indolent disease.

Notes: In addition to virtual webinars, ZERO Prostate Cancer has a yearly summit to educate attendees about prostate cancer diagnosis, treatments, survivorship, and advocacy.
CHARTING IMPACT

What is the organization aiming to accomplish?

ZERO — The End of Prostate Cancer is the leading national nonprofit with the mission to end prostate cancer. Losing a man we love every 17 minutes to prostate cancer is unacceptable. We envision a future with zero prostate cancer deaths and an end to pain and suffering from the disease. We are uniting men and families impacted by the disease to make ending it a national priority. By advancing research, improving lives, and inspiring action, we’re building Generation ZERO, the first generation of men free from prostate cancer.

What are the organization's key strategies for making this happen?

--Research - ZERO serves to protect and grow the largest resource of prostate cancer research funding in the nation. Now infusing $110M in research grants annually, the Department of Defense's Prostate Cancer Research Program (PCRP) has generated three new treatments for late-stage disease and a new genomic tool in the last six years. ZERO spearheaded the creation of the program 20 years ago and within the past year, grew the program by $10M by hosting the annual ZERO Prostate Cancer Summit - where passionate patients, survivors, family members, and loved ones gather in Washington, D.C. to fight for making prostate cancer research and access to care a priority within our federal government.

--Local Impact - Our Summit serves as a catalyst and helps drive action beyond D.C. back in local communities year-round. ZERO Chapters are building vibrant communities of advocates, activists, and volunteers - all champions who come together in the fight against prostate cancer. Established in several regions around the country, ZERO’s Chapters are part of the fabric of these communities - offering education and support. We host our national ZERO Prostate Cancer Run/Walk, the largest men's health event series in America, in 40 cities across the country. Prostate cancer has a 99 percent survival rate when caught early and each event raises significant awareness and funds local research, education, and support programs. ZERO has granted more than $10M to support local organizations that work tirelessly to end prostate cancer.

--Support - Ending prostate cancer also means stopping the pain and suffering endured by millions of patients and their families. Fighting cancer is difficult enough. No man should also have to fight for adequate and affordable care. ZERO provides support programs, such as ZERO360, MENtor, ZERO Connect and more. These programs help alleviate the often devastating medical, financial, and emotional impacts that come with a prostate cancer diagnosis through direct assistance, case management, and community building. ZERO supports community partners to host free testing programs and manages a nationwide testing database while operating a patient navigator program where case managers give each patient comprehensive assistance.

What are the organization's capabilities for doing this?

--Research - With a vast and diverse network of cause champions, ZERO matches patients, doctors, researchers, and government agencies together to better understand the importance of research on improving health outcomes for the disease; assisting to direct research grants appropriately.

--Local Impact - The ZERO Prostate Cancer Run/Walk is a friendly welcome into local communities dedicated to raising awareness for prostate cancer. We invite those impacted by the disease to take an active role in each community through volunteerism at health fairs, mentoring newly diagnosed patients, and educating their networks about early detection. Our volunteers strive to be ZERO Champions - community leaders tasked with raising awareness and recruiting advocates.

--Support - With more than 80 percent of men saying they needed more help at diagnosis and 40 percent of patients not even knowing what stage of the disease they’re in, ZERO launched the ZERO360: Comprehensive Patient Support program to provide free, customized assistance to men with prostate cancer. This unique program, the only case management program exclusively for men with prostate cancer, helps patients overcome access to care obstacles and understand their disease better. In complement to ZERO360, the organization, with its expert staff and medical advisory board, serves as a powerful and comprehensive resource for information from diagnosis to survivorship. Other ZERO programs, such as MENtor and ZERO Connect aim to build community and dialogue around this awful disease. Further, we invest in a variety of content to appeal to different audiences with videos, webinars, social media, brochures, fact sheets, e-newsletters, and podcasts.
What have and haven't they accomplished so far?

With the hard work and passion from our champions, we have made amazing progress by reducing prostate cancer deaths by 35 percent since ZERO was founded in 1997 and tripled the relative 15-year survival rate to 76 percent.

Specifically, ZERO has:

-- Led advocacy efforts to create and infuse more than $1.5B in research funding for the Prostate Cancer Research Program (PCRP), which has generated three life-changing treatments for men living with advanced disease as well as a new genetic diagnosis profile to determine the status of aggressive disease.

-- Successfully fought for an additional $10M in PCRP funding for 2018 for a total of $110M, only the second increase since 2001.

-- Provided more than 50,000 patients with direct assistance to fight prostate cancer.

-- Launched and rapidly grew the ZERO Prostate Cancer Run/Walk into the largest men's health event series in the country with 40 events annually in fewer than 10 years.

-- Tested more than 140,000 men for free so they can know their risk.

-- Worked with the United States Preventive Services Task Force (USPSTF) to update its “D” recommendation on prostate cancer screening to a “C” which advises men to have a conversation with their doctor about the benefits and harms of prostate cancer screening.

-- Recruited and worked with dozens of partners, celebrities, key leaders, and communities to make prostate cancer a federal priority; prompting a national dialogue about the disease that engages families to take action.

PRESIDENT & CEO
Courtney Bugler
LinkedIn profile

Courtney is a nonprofit executive with experience leading national health charities to advance program development, organizational infrastructure, fundraising, and advocacy.

Courtney has over fifteen years of expertise in cancer, healthy equity, chronic disease management, and public health communications. She is certified and trained in patient navigation, cancer survivor support modules and facilitation, and grant review and evaluation. She has lobbied on Capitol Hill for more than a billion dollars in funding toward the Department of Defense Congressionally Directed Medical Research Program and has served as a consumer advocate research grant reviewer for that same program.

As a caregiver to her father, who currently lives with prostate cancer, and a seventeen-year cancer survivor herself, Courtney is honored to be at the forefront of the fight against prostate cancer.

BOARD LEADERSHIP PRACTICES

GuideStar worked with BoardSource, the national leader in nonprofit board leadership and governance, to create this section, which enables organizations and donors to transparently share information about essential board leadership practices.

BOARD ORIENTATION & EDUCATION
Does the board conduct a formal orientation for new board members and require all board members to sign a written agreement regarding their roles, responsibilities, and expectations?

Yes

CEO OVERSIGHT
Has the board conducted a formal, written assessment of the chief executive within the past year?

Yes

ETHICS & TRANSPARENCY
Have the board and senior staff reviewed the conflict-of-interest policy and completed and signed disclosure statements in the past year?

Yes

BOARD COMPOSITION
Does the board ensure an inclusive board member recruitment process that results in diversity of thought and leadership?

Yes

BOARD PERFORMANCE
Has the board conducted a formal, written self-assessment of its performance within the past three years?

No
Organizational Demographics

Who works and leads organizations that serve our diverse communities? This organization has voluntarily shared information to answer this important question and to support sector-wide learning. GuideStar partnered on this section with CHANGE Philanthropy and Equity in the Center.

Leadership

*The organization's leader identifies as:*

- **Race & Ethnicity**: White/Caucasian/European
- **Gender Identity**: Female
- **Sexual Orientation**: Decline to state
- **Disability Status**: Decline to state

Equity Strategies  Last Updated: 09/06/2023

Candid partnered with Equity in the Center - a project that works to shift mindsets, practices, and systems within the social sector to increase racial equity - to create this section. Learn More

Data

✓ We review compensation data across the organization (and by staff levels) to identify disparities by race.

✓ We ask team members to identify racial disparities in their programs and/or portfolios.

✓ We analyze disaggregated data and root causes of race disparities that impact the organization’s programs, portfolios, and the populations served.

✓ We disaggregate data to adjust programming goals to keep pace with changing needs of the communities we support.

✓ We employ non-traditional ways of gathering feedback on programs and trainings, which may include interviews, roundtables, and external reviews with/by community stakeholders.

Policies and processes

✓ We seek individuals from various race backgrounds for board and executive director/CEO positions within our organization.

✓ We have community representation at the board level, either on the board itself or through a community advisory board.

✓ We help senior leadership understand how to be inclusive leaders with learning approaches that emphasize reflection, iteration, and adaptability.

✓ We engage everyone, from the board to staff levels of the organization, in race equity work and ensure that individuals understand their roles in creating culture such that one’s race identity has no influence on how they fare within the organization.

This organization is a 501(c)(3) Public Charity

- Ruling date
02/1998

GuideStar Charity Check Data Sources

- GuideStar acquires all IRS data directly from the Internal Revenue Service.

IRS Publication 78 (Cumulative List of Organizations) lists organizations that have been recognized by the Internal Revenue Service as eligible to receive tax-deductible contributions.

The IRS Internal Revenue Bulletin (IRB) lists changes in charitable status since the last Publication 78 release. Between the release of IRS Publication 78 and the subsequent IRS Internal Revenue Bulletin, the IRB date will reflect the most recent release date of IRS Publication 78.

The IRS Business Master File lists approximately 1.7 million nonprofits registered with the IRS as tax-exempt organizations.

- The IRS Automatic Revocation of Exemption List contains organizations that have had their federal tax-exempt status automatically revoked for failure to file an annual return or notice with the IRS for three consecutive years.

The Foundation Status Code is a value derived by mapping the codes found on the 990PF filing instructions to the corresponding codes in the IRS BMF. Note that not all codes are able to be mapped due to insufficient data.

- The Office of Foreign Assets Control (OFAC) Specially Designated Nationals (SDN) list contains organizations that are owned or controlled by targeted individuals, groups, and entities, such as terrorists or narcotics traffickers. Their assets are blocked and U.S. persons are generally prohibited from dealing with them.
