# HUMAN HEALTH PROJECT

 aka HHP

 Los Angeles, CA

 www.humanhealthproject.org

 (323)825-5074

 View GuideStar Profile

## MISSION

HHP’s mission is to promote peer-to-peer holistic health with three pillars: Information, Education and Support, whereby people around the world can help each other with their health issues, reducing inequities in health outcomes. HHP has a special focus on the underserved and vulnerable population groups, as well as the elderly and their caregivers.

### Real-World Data

**Population(s) Served:**  
General/Unspecified

Healthcare is fragmented, and this adversely impacts quality, cost, and outcomes. For example, doctors and practitioners typically don't have knowledge of each other's medicines and the broad range of treatments available. Additionally, due to the rapid growth of technology and online resources, the amount of health information has increased exponentially. The abundance of information available has made it much more difficult to find the information you need. Knowing who to trust in a sea of commercial health resources can seem almost impossible.

These are significant problems, and that's what HHP's Real-World Data program is about. We provide independent, unbiased information from our community, including all types of medicines, to help you make informed healthcare decisions. Participate by sharing your experiences or learning about how others manage their health conditions.

### Learning Academy

**Population(s) Served:** n/a

The Learning Academy is designed for anyone interested in becoming an empowered patient, empowered caregiver, patient advocate, or those seeking to understand patient engagement and patient-centered care.

Throughout this program, participants will learn key concepts to help better navigate the healthcare system. Tools, information and support will also be provided to help patients feel more confident when facing complex life-

changing decisions.

### Online Panels

**Population(s) Served:** n/a

Online panels provide a platform for people to share their experiences with various health conditions.

### Patient Advocacy

**Population(s) Served:** n/a

HHP's Patient Advocacy program is about empowering patients to use their right of autonomy in the healthcare system. It's about informing patients about resources and inspiring confidence and ownership in their care plan.

RESULTS

Number of new programs/program sites

TOTALS BY YEAR	
2022	1
2021	1
2020	1
2019	1

Population(s) Served: No target populations selected

Related program:

**Notes:** In 2019, we created our Patient Advocacy Program ('Understanding the Healthcare System' by region).  
In 2020, we created our Online Events Program.  
In 2021, we created our Learning Academy Program.

## CHARTING IMPACT

---

### What is the organization aiming to accomplish?

Information: Real World Data ( <https://humanhealthproject.org/hhp-real-world-data-program/> )

Out of what we have learnt, we are now researching the building of infrastructure to be able to allow the HHP community to share information about their health conditions in a user friendly, mobile app based form boosted with artificial intelligence. Our goal with funding is to launch 2 new health conditions in 2022 and 4 in 2023. Long term, our goal is to launch all the approximately 600 main health conditions.

Education: Learning Academy (<https://humanhealthproject.org/learning-academy/>)

We will release a second three module course, Patient Empowerment 101 in Q2 2022 and our plan, with funding, is to launch 4 courses per year in the coming years. In addition to this, we are now working on creating and releasing US localized "State" versions of our courses and in partnership with local healthcare organizations and with funding, in other countries.

Support: Understanding The Healthcare System (Patient Advocacy)

We are currently piloting our Peer to Peer Patient Advocacy Workshops program under the name, "Understanding The Healthcare System", which includes our HHP's Learning Academy, Patient Advocacy, 11 module course. Our goal is to improve the program as a result of feedback and outcomes from the pilot program and to release it, with funding, commencing in 2022, in the US. Our goal in 2023 and future years is to release localized, US "State" versions of this program as well as localized version in other countries in partnership with local non profit healthcare partners.

Support: Online Peer to Peer Panels ( <https://humanhealthproject.org/events/> )

In October 2020, we launched our Online Peer to Peer Panels program which has been very well received. Videos of the events (which can be viewed on our website) will start to be marketed in Q1 2022. Our goal, with funding, is to grow the number of events from 4 in 2021 to 6 in 2022 and 10 in 2023.

---

### What are the organization's key strategies for making this happen?

Our strategies are

1. Deliver integrated, personalized and localized delivery of all our programs, to give people the maximum benefit from them
2. Deliver our programs to people directly online and in partnership with non profit healthcare organizations
3. Deliver our programs via mobile and online with maximum use of off-the-shelf applications and minimum coding
4. Fund the delivery of programs and services through a sustainable combination of fee for service, grants and donations
5. Continue to grow a core paid team complementing HHP volunteers

---

### What are the organization's capabilities for doing this?

Our capabilities include:

- Our 7 member board and who have a broad spread of skills
- Our 9 member Program Council
- Our 8 member Advisory Board
- Our team of volunteers with the following teams

Our team includes the following sub-teams

HR - 7 people

Management 6

Development - 4

Healthcare Research - 4

Programs

- Real World Data - 6

- Learning Academy - 6

- Online Events - 4

- Understanding the Healthcare System (patient advocacy) - 4

Product - 4

Technology - 10

Business Development - 4

Marketing - 10

---

## What have and haven't they accomplished so far?

Information: Real World Data ( <https://humanhealthproject.org/hhp-real-world-data-program/> )

We launched a pilot of our Real World Data Program in 2016 with the condition Migraine and followed with the condition Lupus in 2017. Since then, over 13,000 people have shared data on Causes/Triggers, Symptoms and Treatments which can be viewed on 100 pages for both Migraine and Lupus on our Real World Data pages. Outcomes data collected in 2019 (see this data in the "What Our Members Are Saying" (on our "What We Do" > "Real World Data" page) showed that people found the data very helpful.

Education: Learning Academy (<https://humanhealthproject.org/learning-academy/>)

In 2020, we released an 11 module Patient Advocacy course. In Q1 2022, we released, on the web and on mobile apps, our first publicly available online Patient Education, three module course Patient-Driven Data & Diagnosis: The New Trailblazers in Health Research.

Support: Online Peer to Peer Panels ( <https://humanhealthproject.org/events/> )

In October 2020, we launched our Online Peer to Peer Panels program which has been very well received and have held 5 events to date, videos of which can be seen on our online events page.

HUMAN HEALTH PROJECT

Aka HHP

2271 Vandalia Ave  
Los Angeles, CA 90032

✓ Foundation Status Code: PC\*

✓ Public charity described in section 509(a)(1) or (2)

IRS Publication 78 Details

Organization name	Location	Most recent IRS Publication 78
Human Health Project	Los Angeles, CA	March 2024
EIN	<a href="#">Deductibility status description</a>	Verified with most recent Internal Revenue Bulletin
71-0891805	A public charity (50% deductibility limitation).	March 25, 2024

IRS Business Master File Details

Organization name	Most recent IRS BMF	Reason for Non-Private Foundation Status
HUMAN HEALTH PROJECT	March 12 2024	Section 509(a)(1) organization as referred to in Section 170(b)(1)(A)(vi)
EIN	IRS subsection	Ruling date
71-0891805	This organization is a <a href="#">501(c)(3) Public Charity</a>	08/2002
This organization was not included in the Office of Foreign Assets Control Specially Designated Nationals (SDN) list.		

On September 8, 2011, the IRS issued [regulations](#) which eliminated the advance ruling process for a section 501(c)(3) organization. [Learn more](#)

\* The Foundation Status Code is the code that foundations are required to provide for each grantee annually on part XV of Form 990PF. Note that this code cannot be derived in some cases (e.g., supporting organizations for which 'type' can't be determined).

[IRS Revenue Procedure 2011-33](#) allows grantors to rely on third-party resources, such as GuideStar Charity Check, to obtain required Business Master File (BMF) data concerning a potential grantee's public charity classification under section 509 (a) (1), (2) or (3).

GuideStar Charity Check Data Sources

- GuideStar acquires all IRS data directly from the Internal Revenue Service.
- The [IRS Automatic Revocation of Exemption List](#) contains organizations that have had their federal tax-exempt status automatically revoked for failing to file an annual return or notice with the IRS for three consecutive years.
- [IRS Publication 78 \(Cumulative List of Organizations\)](#) lists organizations that have been recognized by the Internal Revenue Service as eligible to receive tax-deductible contributions.
- The Foundation Status Code is a value derived by mapping the codes found on the [990PF filing instructions](#) to the corresponding codes in the IRS BMF. Note that not all codes are able to be mapped due to insufficient data.
- The [IRS Internal Revenue Bulletin](#) (IRB) lists changes in charitable status since the last Publication 78 release. Between the release of IRS Publication 78 and the subsequent IRS Internal Revenue Bulletin, the IRB date will reflect the most recent release date of IRS Publication 78.
- The Office of Foreign Assets Control (OFAC) [Specially Designated Nationals \(SDN\) list](#) organizations that are owned or controlled by targeted individuals, groups, and entities, such as terrorists or narcotics traffickers. Their assets are blocked and U.S. persons are generally prohibited from dealing with them.
- The [IRS Business Master File](#) lists approximately 1.7 million nonprofits registered with the IRS as tax-exempt organizations.
