2018-2019 Board of Directors

EXECUTIVE COMMITTEE

Jeanine M. D’Arniento, MD, PhD
Chair
New York, NY

Elizabeth Johnson
Vice Chair
MA

Fred Walsh
Treasurer
Duxbury, MA

Jennifer Jopp
Secretary
East Bethel, MN

Gordon E. Cadwgan, PhD
Immediate Past Chair
West Palm Beach, FL

Martin Zamora, MD
Physician Director
Golden, CO

BOARD MEMBERS

Virginia Clark, MD
Gainesville, FL

Kenneth Irvine
Cos Cob, CT

Peg Iverson
Johnston, IA

Ann Knebel
PhD, RN
North Potomac, MD.

Noel G. McEvaney,
MD
Dublin, Ireland

James K. Stoller,
MD, MS
(Cong Dev)
Cleveland, OH

Frank Willersinn,
MD
Brussels, Belgium
OUR MISSION

The Alpha-1 Foundation is committed to finding a cure for Alpha-1 Antitrypsin Deficiency (Alpha-1) and to improving the lives of people affected by Alpha-1 worldwide.

Alphas and everyone affected by this genetic condition are at the core of our mission, and every time we are faced with a challenging decision, we ask ourselves two basic, yet powerful questions:

*Does this bring us closer to a cure for Alpha-1?*

*Does it benefit the Alpha-1 Community?*

Inclusive and innovative have always been key words for the Alpha-1 Foundation since our inception under the leadership of John W. Walsh. The Foundation is constantly on the move to strengthen our community, support cutting edge science, and reach our goal and core of our mission: to find a cure for Alpha-1.

The Foundation’s connection between patients, caregivers, scientific and medical professionals, industry and government, is the axis of our successful transition into the future. We always strive to identify improved ways to serve those affected by Alpha-1 and enhance our research portfolio.
The Alpha-1 Foundation also hosted its Grant Awardees reception during the annual American Thoracic Society’s (ATS) international conference in Dallas, Texas. Over 150 guests, including Alphas, physicians, researchers and industry partners joined at The Perot Museum to recognize the newly awarded grantees from around the world for their work in Alpha1 and their role in our search for a cure. This event provided a platform for networking and collaborative conversation within our research community and an opportunity to encourage new researches to get involved in our research agenda and is always a highlight of the ATS meeting.

The Alpha-1 Foundation hosted the 4th International Research Conference on Alpha-1 Antitrypsin and the 7th Alpha-1 Global Patient Congress on April 3-6, 2019, in Dubrovnik, Croatia. The Patient Congress was attended by 160 participants representing 32 countries. The event began the evening of April 4th with a welcome reception and a joint dinner with the participants from the International Research Conference in which Alpha-1 patients, caregivers, family physicians, researchers and industry partners interacted. The Patient Congress concluded on April 6, 2019. The themes of the Alpha-1 Global Patient Congress were awareness, detection and access to therapies.

The most prominent specialists, medical doctors, Alpha-1 experts, scientists, researchers, and pharmaceutical industry representatives explained the latest medical findings, therapeutic developments, and research outcomes on Alpha-1 in over 30 sessions during two full days at the 28th Annual Alpha-1 National Conference. This year the Alpha-1 Foundation launched the first scientific session to provide patients with the opportunity to hear about the latest updates towards a cure.

The Alpha-1 Foundation hosted a reception on Monday, May 20, 2019, to honor the newly awarded research grant recipients, where 158 guests joined at the Perot Museum in Dallas, Texas, in conjunction with the 2019 American Thoracic Society (ATS) International Conference.

The Foundation announced the in-cycle grant awardees for 2019, 15 grant recipients who will receive a total of $2.46 million for their two-year projects. Since 1995, the Foundation has invested more than $76 million to support Alpha-1 Antitrypsin Deficiency (Alpha-1) research and programs at more than 116 institutions in North America, Europe, the Middle East, and Australia.

Annual in-cycle grants are a regular part of the Foundation’s overall research program. Of this year’s grant awards fields of study, 40% are lung focused, 27% are liver focused and 33% are focused in both areas. The research is focused 66% in basic research, 13% in translational research and 20% in clinical research, keeping a very well-rounded portfolio.

The Grants Award Program is the Foundation’s mechanism to fund a broad range of research that leads to improvements in the lives of people living with Alpha-1. The specific goals of the program are:

- to promote basic science and clinical research related to the alpha-1 antitrypsin protein and Alpha-1;
- to attract and train clinical researchers for the study of Alpha-1;
- to support and encourage established scientists to work on clinical problems and ethical, legal, and social issues (ELSI) within the field of alpha-1 antitrypsin research (with a preference given to new investigators); and ultimately,
- to develop effective therapies for the clinical manifestations of Alpha-1.

For more information on Alpha-1 research, please visit the Research Section at alpha1.org.
Pilot & Feasibility Awards
Principal Investigator: Scott Gordon, PhD
Institution: University of Kentucky Research Lab

Principal Investigator: Julia Hack, PhD, MPH
Institution: Regents of the University of California, Los Angeles

## HONOR GALLERY

The Alpha-1 Foundation’s Honor Gallery salutes the individuals, corporations and foundations that share our commitment to finding a cure for Alpha-1 Antitrypsin Deficiency (Alpha-1) and to improving the lives of people affected by Alpha-1 worldwide. The Foundation gratefully welcomes a number of new members who have supported our mission for the first time through their generous contributions.

The Foundation acknowledges the continued support of the many long-time donors who have invested in our mission through contributions, events and workplace giving. It is with sincere gratitude and appreciation that we recognize our Honor Gallery. The following is a list of donors who contributed $500 or more between July 1, 2018 and June 30, 2019.
