LEAGUE OF WOMEN VOTERS
OF COLORADO

Strategic Objectives
Fiscal Year 2021-22
Has the **meaning of our mission changed?**

- Defending democracy *for all*

# Our Mission:
“Empowering voters. Defending democracy.”

## Empowering Voters
- Resources to make **informed** votes and be **civically active**
- **Access** to protect voting rights while promoting ease and security
- Justice for all Coloradans, especially those whose voices aren’t amplified

## Defending Democracy
- **40% of citizens** believe the 2020 election was rigged and/or fraudulent
- **Educating** people about the **veracity** of our democratic systems
- The League needs to be seen as a **catalyst for justice**
Our Vision

A group that elects and campaigns want on their side and quake when we’re not a leader in the movement towards social justice. Both proactive and reactive. A nonprofit known for advocating for justice for all and the American dream for all. A grassroots powerhouse incorporating perspectives from across the state. Pivots seamlessly while maintaining focus. Representative of our state geographically, economically & culturally.

(These ideas came from strategic planning in 2018.)

Where are we in these broad goals?

- **Gov. Polis** called us twice last session to **discuss legislation**.
- Last year, we hosted over a **dozen presentations** by electeds (they come when we call).
- Our **media presence** and **statewide reach** has grown.

*There is still a lot of work to be done. These goals will be ongoing.*

GOAL #1: Shift League Culture

- **Value perspectives over League experience**
  - Engage people based on who and where they are
  - The League can fit people as opposed to people fitting into the League

- **Focus on engagement over membership**
  - Impact change, increase visibility → members follow

- **Use language of abundance over want**
  - Want diminishes value and reduces privilege of working with the League
  - Examples: “We don’t have the money / No one wants to join / We don’t know how / The same people do everything.”
  - Attract more people, money, and attention by emphasizing positive
GOAL #1: Shift League Culture (continued)

- Move from self-segregation to varied partnerships
  - Leagues may partner with an organization based on a shared position as long as the focus is on that position
  - Branch out to be less insular while still retaining nonpartisan reputation

- The foundation of each of these must be honest respect
GOAL #2: Expand Our Brand As A Social Justice Organization

This identity and direction is in alignment with LWVUS. We are a social justice organization because we believe in and fight for justice for all.

Our nation is closer than ever to a collective understanding of our systemic inequities. People who never really thought about race and privilege are becoming more aware and are baffled by their own ignorance.

Let’s rework how we present ourselves! We are a powerful, diverse group of advocates, lobbying on behalf of Colorado and focusing on its most vulnerable residents. We welcome anyone that wants to stand with us.

The League has advocated for voting rights, equal rights, immigration reform, reproductive rights, gun safety, climate protection... all significant social issues.
