

PRE/POST Survey Results 2021

Participants in our 2021 workshop series completed pre-and post-assessments. The results were astounding. Our program is having a tremendous positive impact on the career success of active military, veterans, and their spouses:

- Pre-program surveys showed that only 35% of participants understood the civilian/corporate hiring process while post-program results indicated 92% of participants.
- Pre-program surveys indicated only 30% of participants felt certain their resume reflected their marketable skills and would be noticed by an employer vs. 96% post-program surveys.
- Pre-program survey results showed only 28% of participants felt confident in their ability to find a new rewarding and enjoyable career of their choice vs. post-program results indicated 100% of participants.
- Pre-program survey results demonstrated only 29% of participants felt they could negotiate their salary confidently vs. 91% post-program survey results.
