Established in 1979, the Foundation for Physical Therapy is the only national organization with the sole mission of funding and publicizing research that determines the scientific basis and value of services intended to optimize physical functioning by physical therapists, and to develop the next generation of researchers.

The groundbreaking findings of the physical therapist investigators the Foundation has supported early in their careers has provided evidence of physical therapy’s crucial role in such areas as:

- recovering from stroke, injury, and accidents;
- improving mobility for children with cerebral palsy; and
- offering pain-free movement in patients with low back pain.

Over the last 34 years, the Foundation has awarded more than $13 million in postprofessional doctoral scholarships, fellowships, and research grants to more than 500 physical therapists. Foundation alumni have gone on to receive more than $595 million in funding from major research funding organizations. Their scientific findings are instrumental in promoting individual and community health and are critical to meeting the health needs of society.

Many of today’s leading and emerging physical therapist researchers, clinicians and academicians began their careers with a grant or scholarship from the Foundation.

The Foundation will continue to support the many researchers around the country who are now developing new treatments and approaches in many areas, including cardiology, chronic conditions, geriatrics, neurology, orthopedics, and pediatrics.

We invite you to join us as we work together to advance the applications of physical therapy and provide evidence of physical therapy’s enormous impact on recovery, rehabilitation, and retaining an active, healthy life.
Dear Friends:

This past year was one of true commitment to dramatically improving the quality of care for our patients and great progress in securing our profession’s place in the future of healthcare delivery.

Thanks to your extraordinary support, we raised over $3 million, as part of the most aggressive campaign in the Foundation’s history, to fund a groundbreaking initiative called the Center of Excellence (COE) in Health Services and Health Policy Research and Training. This is one of the most momentous developments in the Foundation’s 34 year history and will literally change the face of physical therapy. And it’s all because so many of you spoke in one voice and called on the profession to prioritize health services data you so urgently need to more effectively deliver care and analyze outcomes. The COE will answer that need by training a new generation of investigators to provide this critical data. You can read more about the COE in the pages ahead, and donors to this initiative are listed on page 12.

The COE and health services and health policy research is clearly a new, exciting chapter for the Foundation, but we continue to be as committed as ever to supporting the physical therapist researchers who are leading the way in improving the effectiveness of clinical practice. This year, we awarded 20 superlative researchers grants, scholarships and fellowships, including Stacey Dusing, PT, MS, PhD from Virginia Commonwealth University, who aims to jumpstart early intervention services to at-risk newborns in the neo-natal intensive care unit. In the pages ahead, you will read more about Dr. Dusing and others who, with the support of the Foundation, are now in the process of developing new treatments and approaches to prevent common injuries and diseases.

We’re very excited about our new strategic plan, which was crafted this year by the Board of Trustees, staff and volunteers, and will guide the Foundation as we open up new avenues of growth. This new plan sets five-year goals in the major areas of research, the Center of Excellence, public awareness, fundraising, and organizational advancement. The plan is now in place and is directing every activity we undertake.

This has certainly been an incredibly busy and rewarding year, and those of you who are annual donors to the Foundation deserve a special thank you. Throughout it all, you were right there with your donations to the President’s Sustaining Fund, Corporate Partners in Research or the Marquette Challenge. Making an annual contribution isn’t just about furthering our financial goals, it’s also about helping to foster a connection with, and investment in, the Foundation for Physical Therapy’s mission. You can read more about the success of our annual fundraisers and view a listing of contributors on page 25.

And finally, let me end with a provocative and extremely important piece of information. This year, we conducted a review of our scientific program to quantify, for the first time, the full impact of our investments in the work of new and emerging researchers all over the country. The results were eye-popping. We found that the $13 million we have awarded to these researchers over the last 34 years has produced over $595 million in follow-on funding for them. This is an exceptional return on investment. More than 555 researchers from 41 states and the District of Columbia have received Foundation funding through 818 grants, scholarships and fellowships. Over 7,000 articles have been published in scholarly journals. You should be very proud. Their contributions to the advancement of physical therapy research are possible only through your contributions to the Foundation.

On behalf of the Foundation for Physical Therapy’s Board of Trustees and staff, thank you.

Your generosity is the foundation for everything we do to support the many innovators who are building the body of knowledge that advances our profession. Together, we are improving the lives of millions of Americans every day.

Sincerely,

William G. Boissonnault,
PT, DPT, DHSc, FAPTA, FAAOMPT
President

*Emeritus Member
Selected by the Foundation’s Board of Trustees, members of the Scientific Review Committee (SRC) are physical therapist researchers with extensive experience in preparing post-professional doctoral students for research careers. Members are required to have served on National Institutes of Health review committees as well as to have received grant funding as a primary investigator. The SRC reviews and scores grant, fellowship, and scholarship applications. This peer-review process provides the underpinning for the Board of Trustees to award funds based upon the scientific merit of an application.

Sam Ward, PT, PhD (Chair)

*Members as of December 31, 2013
Richard Kim-Solloway is the Foundation's new Senior Specialist, Major Gifts and Fund Development Strategy. He has transitioned into this role from his work on the campaign for the Center of Excellence. Richard previously coordinated the Foundation's 2007-2008 major gifts campaign. He has also worked as the Director of Development at United Cerebral Palsy and Green America; the Deputy Director of Development at Greenpeace USA; the Director of Individual Giving at the Government Accountability Project; the Head of US Fundraising Production at Fundraising Initiatives, Inc.; and began his career managing field canvassing campaigns for environmental and human rights campaigns in cities across the United States. Richard is originally from the United Kingdom and holds an MA in philosophy from the University of Glasgow and a Master of Environmental Studies from the University of Strathclyde.

*Staff as of December 31, 2013

Ashley Ball is the Foundation’s new Senior Communications Coordinator. She manages the Foundation’s external communications and marketing efforts. Prior to joining the Foundation, Ashley served as a public relations intern at The Herald Group in Washington, D.C. She has also served as a White House intern and American Red Cross communications intern. A Mississippi native, Ashley graduated from the University of Mississippi in 2013, where she earned a Bachelor of Business Administration degree in marketing and corporate relations with an emphasis in public relations and reputation management and a minor in journalism.
RESEARCH GRANTS AWARDED in 2013

Magistro Family Foundation Research Grant

Eric Vidoni, PT, MSPT, PhD
Research Assistant Professor, University of Kansas Medical Center/ Education and Outreach Director of KUMC’s Alzheimer’s Disease Center

His 2-year project, “Promotion of Activity through Clinical Education and Reinforcement,” will examine the physical and psychological effects of individualized activity programs for those with Alzheimer’s disease. Dr. Vidoni was also awarded a New Investigator Fellowship Training Initiative (NIFTI) from the Foundation in 2009. This grant is generously provided by the Magistro Family Foundation Endowment Fund.

Pediatric Research Grant

Stacey Dusing, PT, MS, PhD
Associate Professor, Virginia Commonwealth University

Her 2-year project entitled “Supporting Play, Exploration, & Early Development Intervention (SPEEDI) for Infants Born Preterm: An Initial Efficacy Study,” will evaluate the efficacy of SPEEDI in improving reaching and problem solving skills in infants at high risk for developmental disabilities. Dr. Dusing was also awarded a Florence P. Kendall Doctoral Scholarship from the Foundation in 2002 and a PODS II Scholarship in 2005. The Pediatric Endowment Fund and the Legacy Research Fund have graciously financed this grant.

Miami-Marquette Challenge Research Grant

Ryan Mizner, PT, MPT, PhD
Assistant Professor, University of Montana

His 2-year project, “A Novel Unweighting Technology to Address Psychological Impairments Limiting Outcomes after ACL Reconstruction,” focuses on the outcomes of using a bodyweight reduction instrument to deliver graded exercise (BRIDGE) on the outcomes of anterior cruciate ligament reconstruction. Dr. Mizner has also received a Florence P. Kendall Doctoral Scholarship from the Foundation in 2001 and a Promotion of Doctoral Studies (PODS) I Scholarship in 2002. In addition to support from the Miami-Marquette Challenge, this grant was also supported by the American Physical Therapy Association Supporting the Profession Fund and the Legacy Research Fund.
SCHOLARSHIPS AWARDED in 2013

Promotion of Doctoral Studies - Level II Scholarships Awarded in 2013

These scholarships are primarily funded by the American Physical Therapy Association’s “Scholarship Fund”.

Eric Anson, PT, MPT
University of Maryland

Jessica Cassidy, PT, DPT
(Viva J. Erickson Award recipient)
University of Minnesota

Beth Cloud, PT, DPT
Mayo Graduate School

Kristan Leech, PT, DPT
Northwestern University

Dawn Magnusson, PT, MPT
University of Wisconsin, Madison

Laura Miller, PT, DPT
(Mary Lou Barnes Award recipient)
Northwestern University

Funding provided by
Neurology Endowment Fund

Bahar Shahidi, PT, DPT
University of Colorado, Denver

Promotion of Doctoral Studies - Level I Scholarships Awarded in 2013

These scholarships are primarily funded by the American Physical Therapy Association’s “Scholarship Fund”.

Kendra Cherry, PT, DPT
(Pittsburgh-Marquette Challenge Award recipient)
Washington University in St. Louis

Hyosub Kim, PT, DPT
(Patricia Leahy Award recipient)
University of Illinois at Chicago

Andrew Kittelson, PT, DPT
University of Colorado, Denver

Ryan Marker, PT, DPT
University of Colorado, Denver

Kate Minick, PT, DPT
University of Utah

Stacy Stolzman, PT, MPT
Marquette University

Funding provided 2012-2013 Pittsburgh-Marquette Challenge

Florence P. Kendall Doctoral Scholarships Awarded in 2013

These scholarships were funded by the Rhomberger Fund.

Beth McManus, PT, MPH, ScD
University of Colorado, Denver

Mentor: Richard Lindrooth, PhD

“Outcomes Research for Infants and Toddlers in Early Intervention”

Florence P. Kendall Doctoral Scholarships Awarded in 2013

These scholarships were funded by the Rhomberger Fund.

Christopher Faw, PT, DPT, NCS
The Ohio State University

Brian Loyd, PT, DPT
University of Colorado, Denver

Justin Staker, PT, MPT
University of Minnesota
In 2013, the Foundation Board of Trustees started work on a ground-breaking initiative to address the need for health services and health policy research. The initiative, The Center of Excellence (COE) for Health Services and Health Policy Research and Training, will be dedicated to expanding the number of physical therapist scientists in the field.

By the end of 2013, the Foundation raised $3 million needed to fund the Center of Excellence. The FPT Board and staff are tremendously excited and proud to have been able to gather such broad support from the profession – including a $1 million pledge from APTA, and support from over 40 APTA components, many private practices and generous individual and corporate donors.

Additional funds raised for this campaign will strengthen the ability to offer additional grants and scholarships through our own funding program to complement the Center of Excellence.

The Foundation will award a $2.5 million grant to the most qualified institution or health systems network to launch and manage the COE. The application process is currently underway. An ad hoc Scientific Review Committee with expertise in health services/health policy research will review the applications, and the Board of Trustees anticipates making the award in early 2015.

Physical therapist researchers who are accepted into the program will receive the training and skills necessary to examine the most effective ways to deliver, organize, and finance health care delivery, which will ultimately help all of us in the profession dramatically improve patient outcomes.

The training will allow physical therapists to:
- Answer key questions related to best physical therapy practice principles and models;
- Review information from electronic health records and other large scale databases and registries;
- Build capacity for creation, dissemination, and application of health policy knowledge among practitioners, policymakers, payors, and other stakeholders.

Watch Foundation President, Bill Boissonnault, speak about the Center of Excellence.
Thank You to Our COE Donors and COE Volunteers

Over 1,560 participants on 61 teams comprised of physical therapy and physical therapist assistant programs nationwide raised an impressive $37,032 during the inaugural year of the Log ’N Blog. The Log ’N Blog was envisioned by students at the University of Pittsburgh as a way to raise awareness for the Foundation and promote a healthy lifestyle. Participants tracked swimming, biking, and running activities. Team members included students, faculty, physical therapists, friends and family who logged more than 336,000 miles.

TOP PERFORMING SCHOOLS:

Swimming:
1) Saint Francis University
2) University of St. Augustine for Health Sciences – Florida Campus
3) University of Colorado

Biking:
1) Regis University
2) Temple University
3) University of St. Augustine for Health Sciences – Florida Campus

Running:
1) University of St. Augustine for Health Sciences – Florida Campus
2) Temple University
3) Drexel University

TOP PERFORMING INDIVIDUALS:

Swimming:
1) Libby Francis (Saint Francis University)
2) Meghan Cotugno (Saint Francis University)
3) Greg Heden (A.T. Still University of Health Sciences)

Biking:
1) Jack Callaghan (Regis University)
2) Lindsey Knast (Temple University)
3) Nathan Dugan (Columbia University)

Running:
1) Robert Longenecker (Drexel University)
2) Chris Fischer (Saint Francis University)
3) Pam Horne (University of St. Augustine for Health Sciences – Florida Campus)

TOP FUNDRAISING TEAMS:

1) University of St. Augustine for Health Sciences – Florida Campus ($3,492.81)
2) University of Pittsburgh ($3,415)
3) Louisiana State University Health Sciences Center in New Orleans ($2,630)

TOP FUNDRAISERS:

1) Kristin Horne
2) Anthony Celio
3) Catherine Patla

The Foundation would like to thank students at the University of Pittsburgh for helping to develop and promote the Log ’N Blog and all participants for supporting physical therapy research and promoting an active lifestyle.

Special thanks to the 2013 Log ‘N Blog sponsors:
Today in PT, Hygenic/Performance Health Brands, and RockTape
Dr. Stanley Paris, PT, PhD, FAPTA, FAAOMPT, attempted to sail around the world in a quest to become the oldest and fastest person to solo circumnavigate the globe nonstop. In conjunction with this adventure, Dr. Paris raised funds and awareness for the Foundation for Physical Therapy and the physical therapy profession.

On December 2, 2013, the Florida-based and New Zealand-born adventurer, set sail around the world to solo circumnavigate the globe nonstop. However, more than 6 weeks after beginning his journey, Paris was forced to abandon his attempt to solo circumnavigate the globe nonstop due to equipment failures. During 2012-2013, Paris raised more than $250,000.
Special thanks to the Home Health Section for co-hosting the 2013 Foundation Networking Coffee.

Sponsored by:

Today in PT
The Marquette Challenge is an annual grassroots fundraising effort coordinated and carried out by physical therapist and physical therapist assistant students across the country to support the Foundation's mission of providing funding opportunities to outstanding physical therapist researchers.

Students participating in the Challenge have raised more than $2.5 million in support of the Foundation and its mission over the past 25 years.

Funds raised through the Challenge contribute to the rigorous and high quality peer-reviewed process, which results in the awarding of all Foundation scholarships and grants. Additionally, the Challenge supports an annual $40,000 research grant and a promotion of doctoral studies (PODS I) scholarship of $7,500 to physical therapist researchers. Since 2002, the Challenge has specifically funded more than 20 research grants and scholarships, and also partially funded the $300,000 Clagett Family Research Grant in 2010.

During the 2012-2013 Pittsburgh-Marquette Challenge, students from 80 schools participated in raising $222,008 for physical therapy research. Congrats to all the winners of the 2012-2013 Pittsburgh-Marquette Challenge!

1st Place
University of Miami: $28,807

2nd Place
University of Pittsburgh: $28,450

3rd Place
New York University: $16,275

Susan L. Whitney, PhD, PT, NCS, ATC, Professor, University of Pittsburgh
Lawrence G. Pan, PT, PhD, FAPTA, Department Chair and Professor, Marquette University
Sheila Schindler-Ivens, PT, PhD, Associate Professor, Marquette University
The Foundation celebrated its 2013 Gala in Salt Lake City. Distinguished colleagues as well as students from colleges and universities from across the U.S. were recognized for their efforts to advance physical therapy research and the Foundation.

Congratulations to the recipients of our 2013 Foundation Service Awards!
2013 Robert C. Bartlett
Trustee Recognition Service Award

Patricia A. Traynor, PT,
Philip Vierling, MBA, and Charles T. Wetherington

The Foundation proudly presented the 2013 award to outgoing Foundation Trustees Patricia A. Traynor, PT, Philip Vierling, MBA, and Charles T. Wetherington. This award is presented to individuals whose commitment as a trustee has helped develop and sustain activities that promote the funding of physical therapy research.

2013 Charles M. Magistro Distinguished Service Award

Daniel L. Riddle, PT, PhD, FAPTA

The Foundation proudly presented the 2013 Charles M. Magistro Distinguished Service Award to Daniel L. Riddle, PT, PhD, FAPTA. The award is named for Charles M. Magistro, PT, FAPTA, DrSci (Hon), DPT(Hon) who served as the first chairman of the Foundation in 1979 and is an emeritus member of the Foundation’s Board of Trustees. Since 1991, the Foundation has presented this award to individuals for outstanding service and steadfast commitment toward promoting the Foundation’s goals.

Dr. Riddle has had a long-standing relationship with the Foundation, having received funding from the Foundation in 1990 and then later serving on the Board of Trustees from 2005-2010. He was instrumental in the development of the Foundation’s high-priority/high-impact research initiative, which led to the award of the $300,000 Clagett Family Research Grant in 2010. Dr. Riddle is currently the Otto D. Payton Professor in the Departments of Physical Therapy and Orthopaedic Surgery and department coordinator of the School of Allied Health Professions’ PhD distance-learning program at Virginia Commonwealth University.
2013 Premier Partner in Research Award

American Physical Therapy Association (APTA)

The Foundation was pleased to present the Premier Partner in Research Award to the American Physical Therapy Association. Since 2008, the Foundation has presented this award to an exclusive group of organizations that have made generous and longstanding contributions critical to the success of the Foundation and its mission.

Over the past 17 years alone, APTA has contributed more than $7.35 million to the Foundation, and most recently pledged an additional $1 million in support of the Foundation's campaign to create a Center of Excellence for Health Services/Health Policy Research. APTA’s support extends well beyond the financial realm and has been essential to the growth of the Foundation.

2013 Innovation in Fundraising Award

Wisconsin Chapter of APTA

The Wisconsin Chapter (WPTA) was presented with the Innovation in Fundraising Award. This award was established in 2005 to recognize donors who demonstrate leadership, creativity, and initiative to develop, coordinate, and execute an innovative fundraising activity to benefit the Foundation. In 2007, the WPTA developed a 5-year program to match donations made by Wisconsin physical therapy programs to the Marquette Challenge as part of the Chapter’s gift to the Major Gifts Campaign. This year the WPTA has introduced a new matching program where every donation made to the WPTA Fund’s Legacy Endowment, WPTA will send a matching donation, up to $10,000, to the Foundation. The WPTA has continually demonstrated innovative fundraising techniques that create awareness of the Foundation among its members.

2013 Spirit of Philanthropy Award

Jayne Snyder, PT, DPT, MA, FAPTA

The Foundation was honored to posthumously present the 2013 Spirit of Philanthropy Award to Jayne Snyder, PT, DPT, MA, FAPTA, a luminary in physical therapy who passed away in late 2011. Since 2005, this award has been presented annually to donors who exhibit enthusiastic support and dedication to the growth of the Foundation and its mission. After Dr. Snyder’s passing, she left a bequest to the Foundation totaling more than $100,000 to be designated toward the Jayne L. Snyder, PT, DPT, MA, FAPTA Endowment Fund that she established in 2006 to provide financial assistance to the education and training of physical therapist researchers.

Legacy Partners have expressed their commitment to the Foundation and the future of the physical therapy profession through a designated special gift.

These donors have named the Foundation as a beneficiary of a planned gift through their estate. Such gifts may include a bequest and/or naming the Foundation as a beneficiary of a retirement plan, insurance policy, or trust. Other gifts may include the establishment of a named legacy endowment fund.

2013 PARTNERS IN RESEARCH

The Foundation is pleased to acknowledge those companies who provided financial support as Partners in Research in 2013. We appreciate each of these companies’ commitment to helping the Foundation fulfill its mission of advancing the science of physical therapy. Learn more about the Foundation’s Partners in Research program and sponsorship opportunities available. Please contact Barbara Malm at 800/875-1378 x8502 or BarbaraMalm@Foundation4PT.org for more information.
