“Because of your support, members across the nation are able to be a part of something bigger than themselves. I have had the privilege of competing in many contests, traveling with my chapter and meeting amazing people.”

— Jessie Samarin, Oregon FFA member

DEAR FRIENDS,

2022 was a year of celebrating our recent accomplishments while also preparing for the future.

In August, we had a major reason to celebrate. We announced record-high membership with 850,823 FFA members across all 50 states, Puerto Rico and the U.S. Virgin Islands. We are excited to see that the demand for FFA is stronger than ever and that young people continue seeking out our organization as a place to belong and grow.

We were also excited to welcome more than 69,000 FFA members, advisors, exhibitors, alumni, supporters and guests to the 95th National FFA Convention & Expo in October. This premier event allowed us to recognize members’ accomplishments, honor the strong FFA support system and dream about what the future might hold.

In the spirit of forward-thinking, National FFA launched a three-year strategic plan in early 2022. With the plan as our road map, we have worked over the past year to lay the foundation for reaching our goals and strengthening FFA on a local, state and national level.

The updated plan includes three strategic priorities designed to create a clear path toward meeting and exceeding our collective objectives.

Throughout this report, you will get a glimpse of the work being done to address each strategic priority and enhance FFA. Visit StrategicPlan.FFA.org to learn more.

We are excited for this journey that we have embarked on, but we know that our goals are only attainable with strong support. We are grateful for the many corporate partners and individual donors who have stepped up over the past year to provide financial resources, expertise and encouragement as we partner to propel FFA and agriculture into the future.

Furthermore, the success of National FFA is reliant upon steadfast partners throughout our delivery system. The dedication of agriculture educators, state FFA associations and other agricultural education organizations enable us to aim high and join forces to accomplish more together than any of us could individually.

No matter your connection to FFA, we are thankful for all that you do.

As we reflect on 2022 in this annual report, we hope you will celebrate all that we accomplished together and be inspired by the role you can play in the future of FFA.

Sincerely,

Scott Stump
CEO, National FFA

—

2022-25 STRATEGIC PLAN

EVLOLVE programs and experiences to grow the leaders needed to feed, fuel, clothe and sustain the world.

ENGAGE communities and partners to expand access and prepare our members to succeed in diverse and inclusive workplaces.

EMPOWER state and local leaders with the support and resources to deliver on our collective mission.

“Throughout this report, you will get a glimpse of the work being done to address each strategic priority and enhance FFA.”

Scott Stump
CEO, National FFA
As we evolve our programs and experiences to grow the leaders required to feed, fuel, clothe and sustain the world, our guiding principle is to provide more students with authentic workplace experiences as employees, entrepreneurs or innovators.
More than half of FFA members with supervised agricultural experiences (SAEs) are in placement SAEs, where they gain work experience.

In a year that saw enrollment in community colleges decreased by nearly 8%, enrollment in agricultural programs at two-year institutions increased by nearly 50% from the spring of 2021 to the spring of 2022 (48% increase).1

Most FFA members’ SAE programs fall into the Animal Systems interest area.

Most FFA members plan to attend a four-year university; still, FFA members delve into a wide range of post-high school plans.

---

New FFA partnership with Walmart Foundation advances sustainability.

Investing in the next generation is paramount to the future of sustainable agriculture. With funding support from the Walmart Foundation, Cargill, Domino’s, Valent U.S.A., and other supporters, National FFA can prepare members for leadership and careers involving sustainability.

FOR THE FUTURE

An escalating foul odor led Miles Lee to unearth his passion for and future in sustainable agriculture. It was a nearby expanding landfill that inspired his endeavors; but it wasn’t just the smell that captured Lee’s attention. “The landfill was getting bigger and bigger, and it got me thinking about the amount of trash and waste we’re creating,” says Lee. The U.S. Department of Agriculture (USDA) says that 30-40% of the food supply is wasted in the U.S. Discarded scraps pile up in landfills and emit methane—a greenhouse gas more powerful than carbon dioxide.

Lee’s curiosity and subsequent learning led him to discover food waste solutions. As a freshman in high school, he created a composting center on campus for his supervised agricultural experience (SAE). Diverting the food scraps from trash to compost means the result can be reused as rich soil.

A caption here about Miles Lee.

“An escalating foul odor led Miles Lee to unearth his passion for and future in sustainable agriculture. It was a nearby expanding landfill that inspired his endeavors; but it wasn’t just the smell that captured Lee’s attention.

“The landfill was getting bigger and bigger, and it got me thinking about the amount of trash and waste we’re creating,” says Lee. The U.S. Department of Agriculture (USDA) says that 30-40% of the food supply is wasted in the U.S. Discarded scraps pile up in landfills and emit methane—a greenhouse gas more powerful than carbon dioxide.

Lee’s curiosity and subsequent learning led him to discover food waste solutions. As a freshman in high school, he created a composting center on campus for his supervised agricultural experience (SAE). Diverting the food scraps from trash to compost means the result can be reused as rich soil.

An alumnus of Arabia Mountain FFA in Georgia, Lee is now a student at North Carolina Agricultural and Technical State University, majoring in sustainable agriculture with a concentration in plant and soil science.

Sustainability is not a new concept, and its effects are long-term and far-reaching. That’s why it needs to be included in agricultural education and FFA programs. Some FFA members, like Lee and Casey Denk, are already tackling sustainable actions and bringing others along.

Excess garbage leads to FFA member’s discovery.
Denk, an FFA alumnus from Wisconsin, moderated a panel of agriculture experts during the 95th National FFA Convention & Expo to discuss sustainability reforms in the industry. Denk’s beef production SAE has sustainable methods at its forefront. She and her parents incorporate soil health, use solar power, and implement waterways and dams at their family farm.

Sustainable agriculture is here to stay. “Walmart and the Walmart Foundation are committed to helping protect, restore, or more sustainably manage 50 million acres and 1 million square miles of ocean by 2030. To achieve this ambitious goal, we need to help prepare the next generation of agriculture leaders with the resources and knowledge they need to pursue rewarding, productive, and sustainable careers in agriculture,” says Julie Gehrki, vice president and chief operating officer of the Walmart Foundation. “We are proud that, through this grant to the National FFA Foundation, the Walmart Foundation will support the development of new tools and curriculum to support hundreds of thousands of students in learning more about the benefits of sustainable agriculture.”

As a result of his impressive sustainability passion and practices, Miles Lee was asked to join Walmart’s 2022 Sustainability Milestone Meeting. When speaking to attendees, Lee said, “It’s so important for organizations such as the Walmart Foundation to make grants to FFA that continue to recruit people … and let people know that agriculture goes beyond farming.”

Though the FFA mission is delivered through agricultural education, the reality is that even if FFA Alumni don’t pursue careers specific to agriculture, they still emerge as skilled leaders and knowledgeable citizens. They are still the greatest assets to help educate, feed, clothe and fuel the ever-evolving world. With help from generous partners such as the Walmart Foundation, the future is bright.

STORY BY NICOLE HARD-BEASLY AND JESSICA WALKER BOEHM

Focused on support and sustainability. In 2022, the Walmart Foundation provided a $750,000 grant as a new supporter of the National FFA Foundation. The funding is to help FFA secure sustainable agriculture goals for the future. The Walmart Foundation is invested in advancing sustainability, and FFA members equal hundreds of thousands of young people who will drive this change.

As a result of the funding, National FFA is creating instructor and student resources that will incorporate sustainability concepts, allowing teaching and learning practices to evolve. With that, FFA members will be better equipped to address future sustainability challenges in agriculture.

White explains how support from partners like the Walmart Foundation is necessary. “Sustainability in agriculture is something FFA has wanted to expand upon for a while, but this gift from the Walmart Foundation really catapulted our plans off the ground and helped us make traction in relaying it through agricultural education,” she says.

White explains that the goal is to have at least 20% of FFA members experiencing some kind of sustainability learning and/or practice by 2025, which means that around 190,000 young people would be engaged in sustainability within National FFA programming.

Sustainable agriculture is here to stay. “Walmart and the Walmart Foundation are committed to helping protect, restore, or more sustainably manage 50 million acres and 1 million square miles of ocean by 2030. To achieve this ambitious goal, we need to help prepare the next generation of agriculture leaders with the resources and knowledge they need to pursue rewarding, productive, and sustainable careers in agriculture,” says Julie Gehrki, vice president and chief operating officer of the Walmart Foundation. “We are proud that, through this grant to the National FFA Foundation, the Walmart Foundation will support the development of new tools and curriculum to support hundreds of thousands of students in learning more about the benefits of sustainable agriculture.”

As a result of his impressive sustainability passion and practices, Miles Lee was asked to join Walmart’s 2022 Sustainability Milestone Meeting. When speaking to attendees, Lee said, “It’s so important for organizations such as the Walmart Foundation to make grants to FFA that continue to recruit people … and let people know that agriculture goes beyond farming.”

Though the FFA mission is delivered through agricultural education, the reality is that even if FFA Alumni don’t pursue careers specific to agriculture, they still emerge as skilled leaders and knowledgeable citizens. They are still the greatest assets to help educate, feed, clothe and fuel the ever-evolving world. With help from generous partners such as the Walmart Foundation, the future is bright.
As FFA continues to develop the next generation of leaders in an increasingly interconnected, diverse world, we have the opportunity and responsibility to foster the mindsets and skills in our members that enable them to create a fair, diverse, and inclusive industry.
Over the last five years, FFA membership has increased by more than 25%.

With help from our corporate partners and individual donors, financial difficulties are being alleviated for FFA members to participate in National FFA activities, further their education, and pursue careers.

1,027 SCHOLARSHIPS awarded in 2022 totaling $1,565,650 to assist members in pursuing education and careers.

Through the Give the Gift of Blue program, 2,236 BLUE CORDUROY JACKETS were gifted in 2022 to FFA members with financial barriers to purchasing their own jackets. Since 2016, more than 15,000 FFA MEMBERS have been gifted a jacket through the program.

“When I put on the FFA jacket I am reminded that I belong somewhere and that I have a family within the organization. To me, the FFA jacket means I am accepted somewhere to be myself.”

— FFA member

National corporate partners and individual donors made it possible for many FFA members to convene in Indianapolis for the 95th National FFA Convention & Expo.

14,636 FFA MEMBERS attended student workshops.
3,833 FFA MEMBERS participated in career and leadership development events.
2,805 ATTENDEES REGISTERED for Career Success Tours.

At the National Days of Service on-site event at the national convention and expo, FFA members made CAT AND DOG TOYS in partnership with Book Pillows for Hope and about benefiting Indianapolis-area shelters.
Partner and donor support makes meaningful change possible.

Like many organizations, National FFA has identified a need and initiated solutions to address inequity, to increase diversity, and to ensure that it is inclusive and accessible. In 2021, delegates from each of the organization’s 52 state associations ratified new value statements to promote and help define these efforts.

Today, National FFA is working to engage current members, attract new members and remove barriers to student participation. In doing so, FFA is focusing on equity, diversity, and inclusion (EDI), and several donors are joining in with FFA to support this valuable work.

Engaging with expertise.

In 2022, Syngenta, an FFA corporate partner for more than 40 years, provided the National FFA Organization with its first executive-in-residence program, which helped lay a foundation for the work ahead.

Syngenta’s North America Diversity & Inclusion Lead, Brandon Bell, serves as the inaugural National FFA executive in residence for organizational development and culture. As an internal consultant, Bell is helping to evaluate, build, and execute an EDI strategy for National FFA in collaboration with FFA leadership and stakeholders.

“I am honored and humbled at the opportunity to partner with FFA for this executive-in-residence program,” Bell says. “I look forward to working with FFA to develop the next generation of leaders who will create an inclusive and innovative agricultural industry of the future.”

David Hollinrake, Syngenta’s global head of strategy and portfolio management, currently serves on the National FFA Foundation Sponsors’ Board. He comments, “When National FFA came to us and asked for help with their EDI strategy, we were very receptive as we are aligned with the FFA vision of creating the future leaders who will change the world. We’re simply fortunate that we have a wonderful leader in Brandon who not only has expertise in the field of EDI but also a passion for helping others.”

Engaging with the local level.

Realizing that removing barriers for a more equitable, diverse, and inclusive FFA means that it must happen at every level, National FFA has encouraged and initiated efforts for state FFA associations and, in 2022, launched the Equity, Diversity and Inclusion State Collaborative program. With funding from the Walmart Foundation, the Zoetis Foundation, Syngenta, and Cargill for the collaborative, nine state FFA associations received implementation grants to create EDI solutions: Illinois, Iowa, Idaho, Kentucky, Minnesota, New York, Pennsylvania, Ohio, and Wisconsin.

Each state is committed to one year of participation to establish clear, comprehensive, and peer-reviewed plans. In addition, the states must complete action items and create at least 10 assets or best practices to share with other state leaders.

The 2022-23 State EDI Collaborative provided nine states with educational and resources.
development opportunities to strengthen their EDI efforts. Through the program, the states learned how to assess their EDI impact, develop an EDI action plan, communicate the plan with stakeholders and leverage resources among the states in the collaborative to grow a more equitable, diverse and inclusive FFA,” says Melissa Rekeweg, managing director of the National Council for Agricultural Education and associate director of strategic initiatives for National FFA. “National FFA plans to continue to offer the program each year until all states can participate.

Engaging with support. With help from National FFA partners and donors, financial difficulties are being alleviated for FFA members to participate in National FFA activities, further their education and pursue careers.

Last October, at the 95th National FFA Convention & Expo, Tractor Supply Company, through its foundation, announced a commitment of $5 million to National FFA to be distributed at $1 million per year for the next five years.

Tractor Supply also provides local support to help FFA members participate in national activities. Tractor Supply stores in Missouri, Georgia, Alabama, Texas and North Carolina supplied funding for five chapters to go to the National FFA Convention & Expo in 2022.

Likewise, recognizing that many chapters struggle financially to attend the National FFA Convention & Expo, Ford Trucks created the Ford Trucks 95th National FFA Convention Travel Chapter Assistance program. To help remove barriers and support members, Ford Trucks provided FFA chapters with $5,000 to help cover the costs of attending national convention. Grants were awarded to 25 chapters in 2022.

Another important contributor to help further FFA members’ experiences at the national convention and expo is the Dan Naftziger Memorial Convention Endowment. Funds from the endowment help chapters like West Rowan FFA, which traveled from Mount Ulla, N.C., to Indianapolis to compete in the agricultural issues forum leadership development event.

“You think about bringing a team of seven students to Indianapolis; it helped pay for some of their fuel in the bus. It also paid for hotel rooms, so it allowed us to have a full experience and maybe not the stress of fundraising to make it happen,” says Jason Chester, West Rowan FFA advisor.

Culver’s, CHS and other generous supporters, including individual donors, contributed to the travel assistance fund in 2022, making it possible for many FFA members to grow, learn and gain the skills they need to thrive.

As FFA continues to advance its inclusivity and accessibility while engaging current members in transformative experiences, the organization is deeply grateful for the partners and donors supporting these efforts.

STORY BY NICOLE WARNO BECKLEY
The greatest difference FFA makes is rooted in local, regional and state experiences. That’s why it’s important we empower our state and local leaders, teachers and alumni with the support and resources to deliver on our collective mission.
AGRICULTURE EDUCATORS/FFA ADVISORS further our mission on the local level.

13,725 STATE FFA OFFICERS were elected in 2022 to lead their state FFA association.

375 ALUMNI AND SUPPORTERS continue to guide and inspire.

In 2022, 78 alumni grants were awarded to alumni and supporters chapters to give back to their roots or partner with, continue or create a legacy, totaling $157,100.

In a survey of American FFA Degree and American Star Award recipients who received their awards between 2016-21, FFA Alumni are proof of the long-term impact that FFA experiences, knowledge, and skill development can make on our members’ future.

92% SAID THAT their FFA membership contributed to their overall career success.

70% CURRENTLY WORK IN AGRICULTURE.

85% HAVE WORKED IN AGRICULTURE²

² American FFA Degree and Star Award Recipient Survey, National FFA Organization, 2022.
THE FUTURE

EMPOWERING Alums and longtime donors set the bar high.

“FFA changed my life,” says Elin Miller. “I wouldn’t be where I am today without it.” Elin (née Duckworth) and her husband Bill were greatly impacted by their individual FFA experiences in high school. Now, they give back with a great breadth and depth of support to FFA and agricultural education.

Helping future generations discover their passion, find their motivation and succeed in life is important to the Millers. They believe that FFA is vital to those future generations involved in agriculture and beyond.

Empowered from local FFA to global agriculture.

Named National FFA Western Region Vice President in 1979, Elin was only the third female member to hold a national office in the National FFA Organization. A self-described “city kid” in Arizona, who fell in love with agriculture, she found her place in FFA and went on to get her bachelor’s degree in agronomy and plant protection from the University of Arizona.

“Even back then, when often I was the only woman in the room, I have always found FFA to be so inclusive and welcoming, providing opportunities for everyone,” Elin says. “FFA embraced me and gave me a voice.” FFA also gave her the understanding and knowledge of agriculture, the leadership abilities, the collaboration skills and the experiential education to embark on a career that has been a successful international journey through the industry.

“Opportunities to understand the differences and the similarities in agriculture across the world makes for better outcomes and a better place for us all to live,” says Elin.

She has held executive positions as global vice president of public affairs for Dow AgroSciences and as CEO of Arvesta. She received a presidential appointment as an Environmental Protection Agency regional administrator and co-chaired the National Climate Change Committee. She also served the governor of California as director of the department of conservation.

Presently, she serves on a variety of for-profit and nonprofit boards, including Cultivating New Frontiers in Agriculture, Oregon Wine Council, and Fall Creek Farm and Nursery. She is the founder/principal of Elin Miller Consulting, LLC, and is serving a governor-appointed role on the Oregon State Board of Agriculture. And she’s a farmer — for 23 years, the Millers owned a 38-acre hazelnut farm, and they currently co-own Umpqua Vineyards, LLC, in Umpqua, Ore.

Empowered as Forever Blue.

Through the years, Elin and Bill have remained connected to FFA and involved in a multitude of ways. From 2001-06, Elin was on the National FFA Foundation Sponsors’ Board. From 2012-16, Elin was a member of the National FFA Foundation Board of Trustees, during which she also served as chair in 2016 and as co-chair of the National FFA joint governance committee. Currently, she serves on the National FFA Foundation President’s Advisory Council. She has also volunteered as a judge for public speaking career and leadership development events at the National FFA Convention & Expo.

The 1979-80 National FFA Officer Team, which included Elin (fourth from left), attended an event hosted by President Jimmy Carter in the White House Rose Garden.
Empowered to support FFA.
The Millers are loyal financial contributors to the National FFA Foundation and have been for nearly 30 years. They donate annually, have made several major gifts and, in 2022, were recognized as being among the highest level of National FFA Foundation donors in the President’s Circle (gifts of $50,000+). They are also longtime supporters of the Arizona FFA Foundation and support the tens of thousands of Oregon FFA members and 150+ agriculture teachers in their home state; Elin is the immediate past chair of the Oregon FFA Foundation.

Having been so ingrained in all levels of FFA, Elin says that it has given her a unique perspective to see all the different pieces that must work together for the greater good. She believes that the relationship between the national organization, the state associations, and the local chapters is stronger now than ever and that FFA Alumni engagement at every level further solidifies that all entities are unified with a common goal. All those connections, she says, have a positive impact on agriculture educators and FFA members.

“We encourage others — if they can — to support FFA chapters, state associations and the national organization,” Elin says, “because it takes them all to create the environment that FFA members need to succeed. You need that support at the local level and in states to move forward; and you need a strong National FFA to really complete it.”

Empowering agricultural education.
For FFA members to get the most out of their experience, to gain what Elin calls the “dramatic impact that FFA has on lives,” the Millers strongly believe in championing another important aspect of FFA and agricultural education — agriculture teachers.

“Ag teachers are the backbone of ag ed programs,” Elin says. “Over the years, I’ve had the opportunity to ask teachers ‘What would help retain teachers?’ and the reply was that they needed support early on in their careers.”

Getting teachers into the profession and keeping them more than a few years is one of the foremost challenges in agricultural education. Bill was his FFA chapter’s president, but unlike Elin, he wasn’t a state or national FFA officer during his membership. In fact, he could only be in FFA for two years because it was difficult to keep an agriculture teacher at his Oregon high school.

As a result of their experiences, the Millers are steadfast advocates for agriculture teachers and are committed to helping them. Agriculture educators, they believe, should be empowered, encouraged and supported to do their essential work.

The couple established the Bill and Elin Miller Leadership Fund Endowment with the National FFA Foundation to provide for future agriculture teachers. The endowment, which will fund incentivized scholarships for agricultural education majors, was created to encourage retention and longevity in teaching careers, reaching them at that critical early stage. The fund is designated for scholarships at Oregon State University and the University of Arizona — the Millers’ alma maters. With their servant leadership philosophy and philanthropic hearts, Elin and Bill Miller certainly are positive and impactful forces in ensuring the future of FFA and agricultural education.
“FFA let me explore the various aspects of agriculture and find my strengths within the industry. Ultimately, I would’ve never chosen a career in natural resources without my FFA experiences.”

— American FFA Degree/Star Award Recipient
JANUARY
For two weeks, 46 current and former state FFA officers participated in the 2022 International Leadership Seminar for State Officers in California. Attendees were introduced to various types of agriculture, met with agriculture experts and leaders, and learned about practices they could take home to their communities.

FEBRUARY
From Feb. 19-26, the FFA community celebrated National FFA Week. The National FFA Officer Team traveled around the country and interacted with 178 FFA chapters. As part of the week's activities, the National FFA Foundation raised more than $440,000 from 1,300 donors in 24 hours on Give FFA Day.

MARCH
On March 22, three state officers who served as #SpeakAg Pioneers attended the National Ag Day events on the National Mall in Washington, D.C., and conducted a chapter visit with the National FFA Officers. Other #SpeakAg Pioneers participated in virtual legislative visits and posted on social media to advocate for agriculture.

APRIL
Cargill, a 62-year supporter of FFA, committed to making a $750,000 gift to National FFA in support of numerous programs and initiatives, including equity, diversity, and inclusion.

MAY
Eighty-three current agriculture teachers were announced as the 2022-23 National Teacher Ambassadors for FFA. Throughout the year, they trained other teachers, served as a sounding board for FFA, and participated in professional development.

JUNE
Washington Leadership Conference (WLC) was held for the first time since 2019. During the seven weeks of WLC, attendees created 1,109 Living to Serve plans that outlined how they would serve their local communities.

JULY
Thirty-seven FFA Alumni between the ages of 18 and 24 attended the New Century Farmer Conference in Des Moines, Iowa. They learned about production agriculture, toured agribusinesses, grew their leadership skills and developed plans to improve their operations.

AUGUST
To affirm the organization's commitment to a more inclusive, equitable FFA, all chapters were mailed a set of posters that featured new value statements approved by delegates and ratified by board members.

SEPTEMBER
The 15,000th FFA jacket was gifted to a deserving FFA member through the Give the Gift of Blue program. Thanks to donor support, FFA members who cannot purchase their own jackets can apply to receive one through the program.

OCTOBER
From Oct. 26-29, the 98th National FFA Convention & Expo was held in Indianapolis. A record-breaking 69,596 FFA members, advisors, alumni and supporters attended. During the convention, Tractor Supply Company announced a $5 million gift to support FFA scholarships over the next five years.

NOVEMBER
Edna Morris and David Forrester established the Edna Morris and David Forrester Endowment. It will fund the FFA chapter at Morris' alma mater in North Carolina to help members attend any National FFA program or event.

DECEMBER
Thanks to individual donors' and corporate partners' funding, 371 SAE Grants were awarded to FFA members from 41 states to start or expand their supervised agricultural experiences.
“Thank you so much for your support of agricultural education and the National FFA Organization. Supporters like you are the reason why individuals like me are able to succeed, and why the future of agriculture will continue to lie within the blue jacket.”

— Halee Bohman, Idaho FFA member

“What engages and empowers me as an educator is seeing my students and chapter members succeed and find excitement in FFA, agriculture, and class. Seeing a student light up after getting their name called at CDE awards is one of the best experiences as an advisor.”

— FFA advisor
There are countless ways to get involved with FFA. Your involvement helps FFA evolve our programs and experiences, engage new communities and partners, and empower state and local leaders with support.

Become a member
Interested in joining FFA and want to find a local chapter? Use our chapter locator at FFA.org/chapter-locator.

Create a chapter
If you’re interested in forming an FFA chapter in your school, visit FFA.org/start-an-ffa-chapter.

Connect with alumni and supporters
If you’d like to get involved with FFA as an alum or supporter, visit FFA.org/alumni. Join the Forever Blue Network to connect with others at foreverbluenetwork.org.

Celebrate donors and corporate partners
Thank you to the donors who financially contribute to support FFA members, chapters, advisors and agricultural education programs. Find a listing of donors at FFA.org/2022HonorRoll.
FFA VISION
Growing the next generation of leaders who will change the world.

FFA MISSION
FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education.

FFA AGRICULTURAL EDUCATION MISSION
Agricultural education prepares students for successful careers and a lifetime of informed choices in the global agriculture, food, fiber and natural resources systems.

NATIONAL FFA FOUNDATION
The National FFA Foundation builds partnerships with industry, education, government, other foundations, and individuals to secure financial resources that recognize FFA member achievements, develop student leaders, and support the future of agricultural education. Governed by a 19-member board of trustees composed of educators, business leaders, individual donors and FFA Alumni, the foundation is a separately registered nonprofit organization. About 82 percent of every dollar received by the foundation supports FFA members and agricultural education opportunities.

The National FFA Organization is a resource and support organization that does not select, control or supervise state association, local chapter or individual member activities. Educational materials are developed by FFA in cooperation with the U.S. Department of Education as a service to state and local agricultural education agencies.

The National FFA Organization affirms its belief in the value of all human beings and seeks diversity in its membership, leadership and staff as an equal opportunity employer. 2023 ©
