

2023 was a milestone year for Kramden. We celebrated our 20th anniversary and our ongoing commitment to building digital equity in North Carolina. We marked this important year with an updated logo and mission statement that reflect both our work and passion for empowering individuals with skills and tools to thrive in an increasingly connected world.

Funding summary

Thank you to everyone who supported Kramden’s programs in 2023. Individual donors, grant makers, and corporate sponsors contributed nearly 31% of our organization’s **\$1.6 million** budget. With support from our partners, Kramden continues connecting Carolinians and building digital equity across the Tarheel state.

“Adarius just loves his computer. We are so grateful. He’s been using the applications on it to practice his reading in preparation for the EOGs. –Aarona R.”

Device Programs

Education Programs

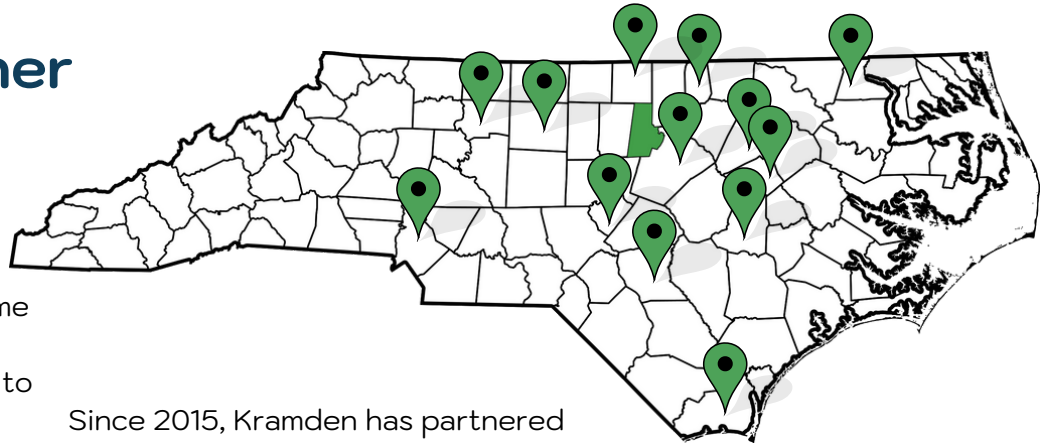

Environmental Sustainability

Train-The-Trainer

Train-the-Trainer is Kramden’s approach to bringing Computer Basics classes to more people in North Carolina. Community Technology Instructors (CTIs) come to Kramden’s location in Durham, where our instructors train them to teach the Computer Basics curriculum. CTIs return to their communities to train others in digital skills.

Since 2015, Kramden has partnered with multiple agencies to provide digital literacy training using this model.

NC Tech Award

Every year, NC TECH holds an awards gala to celebrate the achievements of the state’s tech sector. Kramden was honored to receive the 2023 **Tech for Good** award.

“It brings me great joy, as an instructor for the computer training classes, to see the delight from the residents and their families in the learning, exploring, and connecting through their digital learning. The huge smiles when they receive the laptop devices to take home are priceless. THANK YOU to All the folks at Kramden, volunteers, and those who support this valuable community program.”

- Darlie Dudley, Community Technology Instructor
