

Client Satisfaction Quotes:

1. We are expecting our first child, I wanted to let you know that without Headstrong in my life there is a good chance this would have never happened for us. There were real doubts when I was going through my PTSD if I could raise a child in a healthy home. I am completely confident in my own health because of Headstrong and to raise children in a loving home.

None of this is possible without the constant work from the board and the business staff. I always talked about Headstrong influencing generations of a family on a such a positive level. I am now a perfect example of that.

2. The Headstrong Project has been a life saver, I was struggling to make payments to continue my Therapy appointments and if it wasn't for Headstrong there is no way I could have received that outstanding care and support necessary to help me deal with my PTSD and Anxiety.
3. The world would be a better place if everyone could receive this level of treatment. And I am open to whatever services have even a remote possibility of helping me.
4. I hope that the program continues to grow. I continue to need the services and could not get them as intensely without the help of The Headstrong Project. I have recommended your program to other Vets as well. Thank you for the help and support that I have thus far received that has helped me maintain a job.
5. This is the best program I have been a part of. Amanda is one track with me 100% of the time. I was matched with a perfect therapist, have not self harmed in almost a year, am feeling more stable and confident than I have in a very long time. I have recommended this program to multiple friends and will continue to do so. It is invaluable.
6. The intake psychiatrist was excellent for being non-judgmental and accepting of the wildest, out-there stuff, thus not making me feel crazy for having the background that I was there to finish dealing with. The trauma therapist was just as skilled. Her outstanding listening skills and her willingness to trust my input helped us to quickly identify stuff I didn't even know was causing problems. Best of all, she was totally on board with the idea that I was there to get it done and not to drag things out forever and a day. I have recommended this program to contacts at other federal agencies. Thank you, thank you!
