**Re: Overlook Foundation - GuideStar Evaluation Letter**

---

My colleagues and I have enjoyed the great pleasure to donate to and work with the Overlook Foundation during the last several years. We have been most impressed with the organization's increasing efficiency, strong stewardship, and critically important role in the Medical Center it serves as well as in the larger Summit, NJ, and surrounding communities.

While the Foundation's metrics speak for themselves, it is important to highlight that the return on investment continues to improve with each year; furthermore, the Foundation has raised nearly \$22 million during the first year of its campaign to rebuild its hospital--a fundraising record! Even more important is the culture of the professional and volunteer team; characterized by collegiality and unquestioned integrity, I recommend the Overlook Foundation as one of the most impactful philanthropic investments one can make.
