

We can make an impact on 5 systems over 5 years

“CAIR-Florida moves very boldly into the future”

USTADH UBAYDULLAH EVANS, SCHOLAR-IN-RESIDENCE FOR ALIM

Over the next 5 years, CAIR-Florida has an ambitious plan to transform the every day interactions of American-Muslims in Florida. We are focusing on 5 systems that affect our day-to-day settings. Whether its school, work, or travel, we want our families to feel safe to be Muslim.

Our proactive approach is designed to change the status quo and create a better Florida for all Muslims, inshaAllah.

BUSINESS

With free diversity workshops, trainings, and policy guidelines, organizations can significantly improve interactions with Muslims and reduce the chance of discrimination around the workplace.

GOVERNMENT

Our advocacy at the state and federal level includes meeting with officials to enable policy changes and create new laws that will improve the every day affairs of American-Muslims.

EDUCATION

Through consultation and education, schools and universities can help faculty and students respect American-Muslim needs including prayer, religious holidays, and curriculum guidelines.

LAW ENFORCEMENT

Sensitivity training, workshops, and community meetings are critical to creating safer, inclusive neighborhoods where Muslims are not unjustly targeted or racially profiled by officers of the law.

MEDIA

We are focused on growing media relationships with the press, offering insights, guidelines, and op-eds to amplify American-Muslims voices and keep our stories heard.
