Strategic Goals 2019 – 2021:

Thistle Farms will focus on four core impact areas—survivor success, sales growth, employee satisfaction, and stakeholder engagement. We will measure our success with a common set of indicators, including:

- Are residents offered meaningful opportunities designed to help solidify their healing and recovery, including “big sister” mentorships, financial empowerment classes, and family reunification support?
- Are women graduating from our residential program ready to live independently?
- Does every product sold deliver a positive contribution margin?
- Are we consistently growing our customer email database?
- Do employees feel respected, successful and that their job matters?
