"if you know someone who needs support, CONTACT SAVE A RESCUE!!!!!!!"

I do believe in miracles after Save A Rescue entered our lives.

Recently our childhood dog started to show signs of health problems, as you could imagine it was very heartbreaking. This dog was my fathers world, companion, and best friend.

My parents had to recently relocate with Bow while facing hardship and didn't know where to turn once Bow's (our family dog) symptoms were worsening each day.

I remember the phone calls from my parents crying and begging for help, not knowing what to do or where to turn. It broke my heart.

One day it got very bad, Bow couldn't even lift his head up after a bad seizer. A few minutes later out of the blue my father received the call from Save a Rescue. It was such a blessing. Within minutes the founder had taken care of it all. Found a doctor, told them where to go and handled it all. Upon arrival, All expenses were taken care of, no questions asked.

She helped us save bow.

Bow was finally able to rest knowing my parents would be okay and taken care of.

I honestly have never heard of anything like this in my life. The woman who helped my family is an Angel in my eyes. Thank you. Thank you so much."

"This is a truly inspiring organization! Dog and cat rescues are facilitated across the nation by the org's owner. She personally gets animal control kill-shelters in touch with shelters to save the pets from euthanization. Once she has got animal control orgs. in Mexico in touch with Pet shelters in Canada to save many dogs."

“This is a wonderful organization. I did data entry work for them a couple of years ago and they have really grown a lot since then. They do wonderful work and do a lot for our furry babies! I will back them 100% anytime they need.”

“We recently came across an abandoned pitty near our home. It was obvious she was left to fend for herself. We named her Gracie. Such a sweet and loving animal. We weren't expecting a new addition...so our first thoughts were to find out if she was healthy etc. It was during this time we stumbled across SaveARescue and a beautiful soul named Beverly. She's doing so much to help unwanted, abused and neglected animals all over the country. She helped us get Gracie off to a good start. Please check out her Facebook page. Like and follow her. She's working on a 911 Hot line so anyone can report abuse. Research for yourself and if you're interested in helping please sign the petition. It's free. Thanks.

“Save A Rescue is all about helping the animals by helping and working with Rescues. Beverly is dynamic in her passion to aid those rescues in need resulting in saving the lives of countless animals. Four rescues received over a ton each of much needed dog food (of which we were all having to buy) This name brand “Naked” puppy food was donated and picked up at the “Protein for pets” store in Rancho Cucamonga. All this was orchestrated by Bev Gun-Munro within a week (and before Thanksgiving). She is such an amazing person that keeps the rescues going and the furbabies finding their forever homes. I know I am deeply grateful to her and Save A Rescue for their selfless service to all. Because of them many animals will be fed premium food and be nurtured as they also should be over the holidays. Thanks so much!”

"I found a kitten in a gutter. I wanted to help but I didn't know how. I called Save A Rescue and spoke with Beverly. She helped me know what I could do for this little kitten. Please call them if you need help with an animal situation."

Annalise R.

"Thank you so much for all you have done for the rescues. You helped us get food for our puppies in rescue. We are all so grateful. Thank you."

As long as I've known Bev.. we go way back as childhood friends and neighbours.. she's had a very concerned heart for all manner of four-legged creatures. It's no surprise she has undertaken the rescue mission she has, with the passion, grit and love required to get things moving for animals in distress that need intervention. She undertook this task after decades in numerous successful areas of the Pet Industry, both for the Public and Commerce itself. ~ flying solo, knowing it's a constant 24/7 enterprise. Such is the nature of rescue work. She's been unfailingly up to the task. And having had prior entrepreneurial successes in the business world, she has shown that combination of love for what she does and the ability to make things happen on demand.

I've heard the rescue stories, too many of them heartbreaking. I can honestly say I've not known many people in my lifetime with the devotion and dedication Bev has for a critical service such as this Save a Rescue organization she has headed from it's inception.
