Debra W.3 Volunteer 10/11/2019

Rating:5

I have been involved with Diann Shaddox Foundation for Essential Tremor's for over two years now. During that time I have seen the outstanding work helping and informing the public about essential tremors. They also have been at the fore front on medical research.

During my time volunteering with the foundation I have learned a lot about essential tremors and have had fun helping with fun raising. This is a great organization that does a lot of good.

Here is to many more years of helping

Debra W
