

# DSF Financial Report for 2021

1. 1. 2021- 12. 31. 2021

## WHO WE ARE

We are known for our perseverance, optimism, and diligence that we bring to our mission to find treatment and a cure for Essential Tremor. DSF has helped and will help millions of people who are suffering from Essential Tremor and educate and bring awareness to the world. Now is the time to do more by implementing our new strategic plan. It is clear we need to grow our public support, set our VISION into action..

## MISSION

Diann Shaddox Foundation mission is to advance knowledge and recognition of Essential Tremor to the world and find treatments and a cure for Essential Tremor. We will change the future for everyone who will inherit or develop Essential Tremors.

## VISION

DSF is changing the Future for Essential Tremor. Our goal is to ensure growth of our ET Program. DSF is making astonishing progress in the way the world views ET. We are committed to unite the worldwide ET Community, reach our goal for future advancements to continue unrelenting efforts to make Essential Tremor a household name. Our goal will be reached and sustained with support from our Board of Trustees, corporate sponsorships, and Ambassadors.

## VALUES

DSF is recognized as an aggressive leader in the world of Essential Tremor. Our focused MISSION has not changed, to advance knowledge and recognition of ET to the world and find a cure. We are proud of the wonderful work that we have done in a short period of time. Our MERIT of goal of excellence will continue to grow to achieve the importance of our mission. EQUALITY: We aim to promote fairness and justice for Essential Tremor disability no matter ethnic, cultural, or religious beliefs in order for everyone with Essential Tremor to enjoy full, healthy lives.

## DSF ET PROGRAM FOR 2022

DSF ET Program is bringing the term Essential Tremor along with education and awareness to the world.

Our staff and supporters are dynamic and diverse. Our skills are different, our professions are varied, but our mission is the same; bring awareness, find treatments, and support to everyone living with Essential Tremor.

ET is the most prevalent movement disorder, yet the precise number of cases in the USA and world is not known along with knowledge. We need to collect more information and data and bring ET to the forefront. We are on the cutting edge and with correct resources our vision will be accomplished.

ET is often thought of as an adult condition. However, it can start at any age affecting children. Very little is known about the treatment of ET in childhood. Our goal is to help children learn to discuss and be open about their tremors and understand they aren't alone.

Our end goal is to build a highly connected network of industry leaders who believe in our vision, to unite the Essential Tremor community and help them live productive healthy lives. Our unique challenge is Essential Tremor has been an ignored disease for years. We understand that our strategic plan achievement will bring one voice for ET to resonate and be heard worldwide.

DSF funds go to broaden our reach across the United States and the world by expanding our presence through social media, marketing, and advertising. To accomplish our objective we need contributions, corporate sponsorships, and grants to fulfil our goal.

## PROFIT

Contributions continue to be the main source of DSF revenue.

## EXPENDITURE

DSF expenses for 2021 are:

## WHAT'S NEXT?

Our goal for 2022 is to ensure growth of our Diann Shaddox Foundation for Essential Tremor Programs. We are committed to find treatments and a cure for Essential Tremor.

Our vision serves as a roadmap for 2022 and future advancements. Our path is laid out and with the correct resources/funds, our vision will be accomplished.

DSF is committed to unite the worldwide Essential Tremor community, reach our goal, and continue unrelenting to make Essential Tremor a household name around the world.
