RMH-NY Board Approved a Strategic Framework

RMH-NY Proposed Strategic Framework

Improve child and family experience of healthcare, promote child and family wellbeing, improve health outcomes, support caregivers, reduce hospital length of stay, avoid hospital readmissions.

House
- Enhance services and programs for children and families during and after their stay in the House

Growth
- Expand through a network of Respite Centers based on the need for and implications of services in off-site locations to support children and families in NYC

Evolution
- Work with priority partners to refine the continuum of services, including establishing a "virtual house" platform

Sustainability
- Diversify funding sources through digital fundraising, grant procurement and other means focused on the organization’s capacity to attend to the social determinants of health

Foundation

Maintain the historical objective of RMH-NY to provide a "home away from home" (e.g., lodging, respite, food, and transportation) for families and children impacted by pediatric cancer, and children with other compatible pediatric illnesses and their families when possible.
