Food Voucher Program External Evaluation

We have received nothing but enthusiastic and positive comments. Voucher patrons are grateful with one commenting to our Mayor Labbe, “What a wonderful and positive thing you are doing for our community.”

Mayor Labbe has been equally positive and feels this program has really impacted in a positive way the mental health of our community by getting people out and enjoying a meal.

Casa Sanchez restaurant owner Rogelião Sanchez had this to say about the Hunger Relief Program:

This program is very good, helps the community and helps citizens get away from their problems, and at the same time provides food for families. This is very good for the local businesses and makes everyone happy.

Sherry Randall, owner of Silver Llama restaurant, was also very supportive:

We are seeing people here that we have never seen before and are now new customers. I am pleased this program continued through the Holidays.

St. George Food Pantry Patrons:

Since St. George only does lunch, there is nowhere to get a hot meal in the evenings. This program is a real lifesaver.

This program is incredible! My husband and I haven’t been on a date in nearly 20 years, but because of this program, we were able to spend some quality time together. Please keep it up!
