Loudoun County Board of Supervisors

FOR IMMEDIATE RELEASE

September 28, 2021

Gerald A. Moore Sr.
Mission Fulfilled 2030
44715 Prentice Dr.
Suite 1691
Ashburn, VA 20101

To Whom it May Concern,

This letter is to offer my office's support to the Mission Fulfilled 2030 nonprofit organization and their vision to bridge the technical education gap of untapped diverse talent in Loudoun County. We are committed to putting the voice and lives of the youth we serve first. Mission Fulfilled 2030 provides innovative programming for Black and Brown boys and they are the only organization in our area with the primary focus of producing great outcomes for this demographic. We are looking forward to partnering with Mission Fulfilled 2030 to assist with their long-term vision to level the playing field in tech/STEM.

Mission Fulfilled 2030 provides mentoring and case management services to "disconnected" youth K-12 and postgraduates who have disengaged from school but show potential to participate in digital high-tech and STEM disciplines.

We are excited and pleased about the work that Mission Fulfilled 2030 is doing in our community and believe in their ability to impact more youth with your funding support. Most of all, we are anticipating that the results of their work will have a lifetime impact on local youth.

Please don't hesitate to contact me if we may provide additional information.

Sincerely,

Chair-At-Large
Board of Supervisors
