Ashburn, VA 20147

Dear Gerald,

This letter comes with my deepest gratitude to you for blessing St. Ann's Center for Children, Youth and Families with your generous gift of 10 Chromebooks to our families, given to us through Mission Fulfilled 2030. St. Ann's staff and I appreciate your support more than you can imagine!

In the midst of the challenges and uncertainties we continue to face because of the COVID-19 pandemic, your donation for the women and children living at St. Ann's is truly a Godsend. As you know, the pandemic caught us off guard. Our school age children needed access to their online schooling. Our resources were limited, but we managed to install building-wide WiFi. However we were still missing a key piece of technology - laptop computers for the children and other residents. Mission Fulfilled 2030 responded, and now our children have easy access to their classes. Our child care center, too, is using the Chromebooks to provide one group of children with a virtual Early Head Start classroom. The Chromebooks have also enabled us to continue offering our mothers weekly life skills and parenting classes.

Thanks to you, our programs have remained strong during this trying time. Women and children have a safe, dignified place to call "home." Families are receiving critical services. We have the means to use technology to maintain our services and take advantage of new opportunities.

Again I send heartfelt thanks to you for your support! May this beautiful holiday season bring you and your family blessings of joy, peace and good health.

Gratefully,

A handwritten signature in blue ink that reads "Sister Mary Bader".
