[Serve] a broader cross-section of our community.

What will this look like?

- **Expanding relationships with local schools.**
  Using CLC’s Public Conservation Areas as outdoor classrooms where students can collect important scientific data and adopt their local landscapes.

- **Collaborating with community partners.**
  Working with libraries, arts institutions, after-school groups, and partners to create new public programs to connect people to the land in new ways.

- **Exploring new ways to engage community.**
  Pursuing partnerships with organizations serving groups that have been traditionally under-represented in the environmental movement.

How can I get involved?

- **Volunteer**
  CLC is actively recruiting individuals to help with educational programs.

- **Attend a program**
  CLC’s website will be updated to include a list of programs you can request.

- **Get in touch**
  If you have an idea for a program or partnership, let us know!
