INDEPENDENT AUDITOR’S REPORT

To the Board of Trustees
United Planet Corporation
Boston, Massachusetts

I have audited the accompanying financial statements of the United Planet Corporation, (a Massachusetts non-profit corporation) which comprise the statements of financial position as of December 31, 2013 and 2012 and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain evidence about amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of the material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the United Planet Corporation as of December 31, 2013 and 2012 and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other-Matter

My audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information on Page 9 is presented for the purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements
Years ended December 31, 2013 and 2012

Note 1—Nature of business.
United Planet Corporation, the “Organization,” is a non-profit public charity, striving to create a world in which all people understand, respect, and support one another. The mission of the Organization is to develop a global network of leaders and volunteers which fosters cross-cultural understanding and addresses shared challenges to unite the world in a community beyond borders. The principle that animates everything the Organization does is the concept of Relational Diplomacy -- recognizing that the relationship between people of diverse backgrounds is the basic building block for uniting the world. United Planet's holistic approach integrates international, local, and online initiatives to facilitate ongoing engagement. All United Planet programs create points of access for people of all cultures, nationalities, ages, and socio-economic classes to participate worldwide. Each program feeds into and builds momentum for the other. These initiatives are designed to expose our common human bonds, generate respect and appreciation for our cultural, racial, and religious diversity, and improving and enriching lives worldwide.

For more than a decade, United Planet has brought together thousands of people all over the world in the effort to build cross-cultural understanding and provide vital services to communities in need. United Planet's Quest program brings volunteers to over 40 countries around the world from one week to one year to address key global issues, in areas such as education, healthcare, the environment, and more, while building cross-cultural understanding and forging closer global relationships. United Planet volunteers also engage in a range of locally based and online activities to achieve our global mission.

Note 2 - Summary of significant accounting policies.

Basis of accounting:

The financial statements of the Organization have been prepared on the accrual basis. The significant accounting policies followed are described below to enhance the usefulness of the financial statements to the reader.

Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
