I attended the LEAP into Advocacy Virtual Conference and it was an awesome experience! The information available was very educational and informative. What I enjoyed most was the experiences and testimonials of the parents about why they advocate. I would encourage all who have not attended a LEAP event to do so; you too will be impacted. – K.P.

I left the LEAP virtual conference with a wealth of knowledge! Every speaker was well versed and very transparent. I think transparency is key to helping others better understand the importance of advocating for loved ones, friends, and neighbors if need be. The topics on the agenda kept my attention for the entire duration of the conference. I am very appreciative that every speaker was willing to give their contact information in case there were more questions after the meeting. I look forward to future events and conferences hosted by the E.WE Foundation. – S.J.
