Independent Auditors’ Report

Board of Directors
CORAL RESTORATION FOUNDATION INC
Key Largo, Florida

We have audited the accompanying financial statements of CORAL RESTORATION FOUNDATION INC, which comprise the statement of financial position as of December 31, 2016, and the related statement of activities and changes in net assets, and cash flows for the year then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CORAL RESTORATION FOUNDATION INC, as of December 31, 2016, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

The 2015 financial statements of CORAL RESTORATION FOUNDATION INC were audited by other auditors, whose report dated August 31, 2016, expressed an unmodified opinion on those financial statements.

See accompanying notes.
Note A - Nature of Operations and Summary of Significant Accounting Policies:

Nature of Operations

The Coral Restoration Foundation Inc (the Foundation) was incorporated in the State of Florida in September 2002 and is a nonprofit organization under Section 501(c)(3) of the Internal Revenue Code. The fundamental mission of the Foundation since its inception is to create offshore nurseries and restoration programs for threatened coral species. The Foundation has two facilities in Key Largo, Florida consisting of administration and education facility, and a wet laboratory and warehouse.

Programs

The major program activities of the Foundation are as follows:

- Coral Restoration: Create offshore nurseries, maintain and outplant. Through this program, the Foundation is actively restoring coral reefs.
- Education: Educate individuals on how they can make a difference from anywhere in the world to better our oceans.
- Science: Develop new innovative techniques, monitor previously outplanted colonies and facilitate outside collaborations.
- International: Provide assistance and consulting in the Caribbean and South Pacific to help communities restore their endangered coral reefs.

Basis of Accounting and Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables and other liabilities.

The Foundation follows Financial Accounting Standards Board (FASB) Accounting Codification (ASC) Topic 928-205 "Financial Statement of Not-for-Profit Organization." Under ASC Topic 958-205, the Foundation is required to report information regarding its financial position and activities if they apply according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. A description of the unrestricted, temporarily and permanently restricted net asset classes are described in the following paragraphs.

Unrestricted net assets represent the portion of net assets of the Foundation that is neither permanently restricted nor temporarily restricted by donor-imposed stipulations, or assets that are received with restrictions that are satisfied in the same reporting period. Unrestricted net assets include expendable funds available for support of the Foundation. Unrestricted net assets also include both undesignated and Board-designated amounts. The Foundation’s Board of Directors segregated no unrestricted amounts received from various donors as Board-designated fund assets as of December 31, 2016 and 2015.
Note A - Nature of Operations and Summary of Significant Accounting Policies (Continued):

Basis of Accounting and Presentation (Continued)

Temporarily restricted net assets represent contributions and other inflows of assets whose use by the Foundation is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Foundation pursuant to those stipulations. The Foundation had temporarily restricted assets of $126,410 and $153,490 as of December 31, 2016 and 2015, respectively.

Permanently restricted net assets represent contributions and other inflows of assets whose use by the Foundation is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Foundation. The Foundation did not have any permanently restricted assets as of December 31, 2016 and 2015.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Grant Revenue

The Foundation receives grants from various agencies, including the federal government, to carry out certain program activities. The grants are received under contracts which require the Foundation to submit appropriate records of services provided to sub-grantees’ contractors. Revenue funded by grants is recognized as the Foundation performs the contracted services under grant agreements. Grant revenue is recognized as earned as the eligible expenses are incurred. Grant expenditures are subject to audit and acceptance by the granting agency, and as a result of such audit, adjustments could be required. Funds received in advance of incurred grant program expenses are reported as deferred revenue.

Contributions

Contributions are recognized when the donor makes a pledge to the Foundation that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

The Foundation uses the allowance method to determine uncollectible, unconditional pledges receivable. The allowance is based on prior years’ experience and management's analysis of specific pledges made. The Foundation has determined that any allowance would be immaterial.
Note A - Nature of Operations and Summary of Significant Accounting Policies (Continued):

Revenue Recognition (Continued)

Contributions (Continued)

The Foundation reports conditional promises to give as contribution revenue when the conditions stipulated by the donor are met, so the conditional promises become unconditional.

The Foundation reports unconditional promises to give as temporarily restricted contributions, unless otherwise restricted by the donor. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on these amounts are computed using risk-free interest rates approximating a U.S. prime rate during the year, approximating 3.75% for 2016 and 3.5% for 2015.

Donated Goods and Services

The Foundation records the value of donated goods or services when there is an objective basis available to measure their value. Donated materials, equipment and services are reflected as contributions in the accompanying financial statements at their fair values at the date of receipt.

Volunteer Services

The Foundation benefits from the efforts of many volunteers. These in-kind contributions by volunteers are not recorded as revenue in the financial statements because they do not meet the requirements for recognition under U.S. generally accepted accounting principles.

Cash Flows

For purposes of the Statements of Cash Flows, the Foundation considers all highly liquid instruments purchased within three months or less of an instrument's maturity date to be cash and equivalents.

Inventories

Inventories consist primarily of items for sale in the gift shop and coral to be utilized in reef restoration outplanting sites. Inventories are stated at the lower of cost or market using the first-in, first-out method of accounting.

Property, Equipment and Depreciation

Property and equipment are carried at cost and includes expenditures for new additions and those, which substantially increase the useful lives of existing assets. Depreciation has been provided on the straight-line method over the estimated service lives of the equipment. Depreciable lives generally range from 5-15 years.
Note A - Nature of Operations and Summary of Significant Accounting Policies (Continued):

Property, Equipment and Depreciation (Continued)

Expenditures for normal repairs and maintenance are charged to operations as incurred. The cost of property or equipment retired or otherwise disposed of and the related accumulated depreciation are removed from the accounts in the year of disposal with the resulting gain or loss reflected in earnings.

The provision for depreciation amounted to $21,574 and $16,454 for the years ended December 31, 2016 and 2015, respectively.

Advertising

The Foundation charges advertising costs to expense as incurred. Advertising expenses amounted to $19,870 and $36,937 for the years ended December 31, 2016 and 2015, respectively.

Functional Allocation of Expenses

The costs of providing the various programs and supporting services have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated among the programs and supporting services in reasonable ratios determined by management.

Fair Value Measurements

The Foundation categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

As of December 31, 2016 and 2015, the Foundation held certain financial assets, donated to them, that are required to be measured at fair value on a nonrecurring basis. These assets are considered to be Level 2 in the fair value hierarchy defined above.

Income Taxes

The Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and has been classified as an other than private foundation.

Authoritative accounting standards require the Foundation to examine its tax positions for uncertain positions. Management is not aware of any tax positions that are more likely than not to change in the next 12 months or that would not sustain an examination by applicable taxing authorities. Although the Foundation has not incurred any interest and penalties associated with these positions, it is their policy to expense them in the statements of activities and changes in net assets.
Note A - Nature of Operations and Summary of Significant Accounting Policies (Continued):

Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update 2014-09, “Revenue from Contracts with Customers”, which supersedes nearly all existing revenue recognition guidance under accounting principles generally accepted in the United States of America. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing accounting principles generally accepted in the United States of America. The standard is effective for annual periods beginning after December 15, 2018, using either of the following transition methods: (i) a full retrospective approach reflecting the application of the standard in each prior reporting period with the option to elect certain practical expedients, or (ii) a retrospective approach with the cumulative effect of initially adopting ASU 2014-09 recognized at the date of adoption (which includes additional footnote disclosures). The Foundation is currently evaluating the impact of its pending adoption of ASU 2014-09 on the financial statements and has not yet determined the method by which the Foundation will adopt the standard in 2019.

In July 2015, the FASB issued Accounting Standards Update 2015-11, “Simplifying the Measurement of Inventory”, which require inventory within the scope of this standard to be measured using the lower of cost and net realizable value. The changes apply to all types of inventory, except those measured using last-in, first-out or the retail inventory method. The amendments are effective for annual periods beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017. The Foundation adopted this standard in 2016, with no significant impact.

In February 2016, the FASB issued Accounting Standards Update 2016-02, “Leases”. The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. The new standard also requires a lessor to classify leases as either sales-type, finance or operating. A lease will be treated as a sale if it transfers all of the risks and rewards, as well as control of the underlying asset, to the lessee. If risks and rewards are conveyed without the transfer of control, the lease is treated as financing. If the lessor doesn’t convey risks and rewards or control, an operating lease results. The new standard is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. A modified retrospective transition approach is required for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Foundation is currently evaluating the impact of this accounting standards update.
Note A - Nature of Operations and Summary of Significant Accounting Policies (Continued):

Recent Accounting Pronouncements (Continued)

In August 2016, FASB issued Accounting Standards Update 2016-14, “Presentation of Financial Statements of Not-for-Profit Entities”, which will change the way all NFPs classify net assets and prepare financial statements. The new standard will eliminate the distinction between resources with permanent restrictions and those with temporary restrictions from the face of financial statements. Reducing complexity and enhanced disclosure in notes to financial statements will provide useful information about the nature, amounts and effects of the various types of donor-imposed restrictions, which often include limits on the purposes for which the resources can be used as well as the time frame for their use. It is effective for annual financial statements issued for fiscal years beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018.

Note B - Inventory:

Inventory is comprised of the following at December 31, 2016 and 2015:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Note D - Operating Lease Commitments:

The Foundation leases its office and education center under an agreement, which expires in December 2019, and requires monthly payments of $1,200. The agreement includes a renewal option, which allows the Foundation to extend the lease term for one additional year.
Note D - Operating Lease Commitments (Continued):

The Foundation leases its warehouse facility and wet laboratory on a month-to-month basis from an entity owned by a board member. The lease provides for monthly payments of $2,000, effective January 1, 2016 and continuing through December 31, 2016. The lease automatically renews for a period of one year.

Subsequent to year ended December 31, 2016, the Foundation entered into a lease agreement on an operations center for the period of February 2017 through February 2020. The lease provides for monthly payments of $4,200 at inception, with a 3% annual increase.

Rent expense amounted to $38,400 and $36,720 for the years ended December 31, 2016 and 2015, respectively.

Future minimum commitments under these agreements are as follows at December 31, 2016:

<table>
<thead>
<tr>
<th>Year Ending December 31,</th>
<th></th>
</tr>
</thead>

<tr>
<td>2020</td>
<td>4,456</td>
</tr>
<tr>
<td></td>
<td><strong>$ 200,082</strong></td>
</tr>
</tbody>
</table>

Note E - Related Party Transactions:

The Foundation received contributions, including cash and in-kind donations, from various members of the Board of Directors amounting to $62,926 and $60,153 for the years ended December 31, 2016 and 2015, respectively.

The Foundation rents warehouse and wet lab space from a board member on a month-to-month basis. Total rent and utility expense related to the facility amounted to $24,000 and $21,600 for the years ended December 31, 2016 and 2015, respectively.

Note F - Special Events:

Special fundraising programs include events such as the annual Gala held by the Foundation to help raise awareness about the Foundation’s work in the Florida Keys and throughout the Caribbean to help restore coral reefs and increase awareness about the problems that oceans and reefs currently face. This event raised total gross revenues of $146,054 and $165,534 in 2016 and 2015, respectively.
Note G - Grant Agreements:

National Oceanic and Atmospheric Administration

In 2013, the Foundation received a government grant from the National Oceanic and Atmospheric Administration (NOAA) in the amount of $700,000 to outplant 14,775 corals from two threatened species in the Florida Keys during the period of October 1, 2013 through September 30, 2016. On an annual basis, the Foundation will utilize a number of measuring techniques to monitor and report progress and outcomes. The Foundation was required to raise an additional $700,000, including in-kind donations, during this same time period. Additionally, no indirect or overhead costs are allowed to be paid using these funds. During the years ended December 31, 2016 and 2015, the Foundation received approximately $262,486 and $231,514, respectively, which was recorded as revenue in the Statements of Activities and Changes in Net Assets.

During 2016, the Foundation received a government grant from NOAA in the amount of $2,055,200 to outplant 50,700 corals from two threatened species on eight reefs across the Florida Reef Tract during the period of October 1, 2016 through September 30, 2017, but may be extended through September 2020. The Foundation is to provide matching funds up to the amount of $1,933,200, including in-kind contributions, of project-related costs from non-federal sources. No amounts have been received under this grant in 2016.

Monroe County Tourist Development Council

During 2015, the Foundation was awarded various capital project grants from Monroe County Tourist Development Council (TDC). The Monroe County TDC agreed to fund 50% of projects to outplant two threatened species in reefs within specified state and federal waters off Monroe County, Florida. The Foundation completed the project in 2016 and submitted reimbursement packets for review and approval as required. Total funding provided by Monroe County TDC during 2016 amounted to $173,550. No funding was recognized or received in 2015 for this grant.

Wallace Research Foundation

The Foundation was awarded and received $187,000 in April 2015 and $140,000 in January 2016 from the Wallace Research Foundation (“Wallace”) to support the salary of the Executive Director. The Foundation incurred expenses of approximately $83,500 during the year ended December 31, 2015, and approximately $138,100 during the year ended December 31, 2016, which was recorded as revenue in the Statements of Activities and Changes in Net Assets. As of December 31, 2016, approximately $105,400 remains temporarily restricted on the Statements of Activities and Changes in Net Assets.

Ocean Reef Club, Inc.

Effective June 15, 2016, the Foundation entered into an agreement with Ocean Reef Club, Inc., (“ORF”) who will assist the Foundation to raise at least $1,000,000 in donations from the Ocean Reef Club Community over the next five years, with a minimum of $200,000 being raised annually. The Project plan is to restore, preserve and protect the North Carysfort Reef by outplanting 30,000 corals through December 31, 2020. During the term, the Foundation will dedicate a portion of unrestricted operating income received from sources other than the Ocean Reef Club to support the Project amounting, up to a value of $500,000 over the five-year period. As of December 31, 2016, the Foundation received $325,000 from ORF, with $200,000 being recorded in revenue and $125,000 being deferred. The Foundation contributed $100,000 of its unrestricted earnings to the project in 2016.
Note H - Concentrations:

Business Concentration

The Foundation relies upon the successful cultivation of live corals within its underwater nurseries to supply live corals to restore reefs. The Foundation’s nurseries are located in close proximity to each other within the Florida Keys National Marine Sanctuary and are vulnerable to localized events which could damage or destroy them; i.e., hurricanes and other large storms, coral diseases and coral bleaching events arising from warming ocean waters, among others. It is reasonably possible that such adverse events could disrupt these nurseries and destroy live nursery corals, which could create near term severe impact to the Foundation’s operations and financial condition, including preventing the Foundation from meeting donor contractual commitments.

Concentrations of Credit Risk

The Foundation’s financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents. The Foundation places its cash and cash equivalents with primarily one financial institution. At times, such amounts may be in excess of the FDIC insured limit. The Foundation has never experienced any losses related to these balances.

Major Donors

The Foundation has three major donors that accounted for approximately 41% of total donations for the year ended December 31, 2016, and two donors that accounted 34% of total donations for the year ended December 31, 2015.

Note I - Effects of Current Economic Conditions on Contributions:

The Foundation depends heavily on contributions and grants for its public support. The ability of certain contributors and grantors of the Foundation to continue giving amounts comparable with prior years may be dependent upon current and future overall economic conditions. While the Foundation's Board of Directors believes the Foundation has the resources to continue its programs, its ability to do so and the extent to which it continues may be dependent upon the above factors.

Note J - Reclassification:

Certain amounts included in the prior year's financial statements have been reclassified to conform to the current year's presentation. The reclassifications have no effect on total assets, total liabilities, net assets or excess of support and revenues over expenses as previously reported.

Note K - Management Evaluation of Subsequent Events:

The Foundation has evaluated subsequent events through July 6, 2017, the date on which the financial statements were available to be issued.
Independent Auditors’ Report on the Supplementary Information

Board of Directors
CORAL RESTORATION FOUNDATION INC
Key Largo, Florida

Our audit of the financial statements included in the preceding section of this report was conducted for the purpose of forming an opinion on those statements as a whole. The supplementary information presented in the following section of this report is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
