

WHO ARE WE?

OUR MISSION

To positively impact kids, families, and society for the future by providing the best therapy services for all, regardless of their ability to pay, and by educating parents, teachers, other professionals, and our community regarding the unique needs and potential of our clients.

In pursuit of our mission we have developed Core Values that give us a touch stone to ensure that we are fulfilling our mission.

CORE VALUES OF NEUROTHERAPEUTIC PEDIATRIC THERAPIES

1. **WE ARE FAMILY CENTERED**, not just in words but in practice. We believe that no one exists in isolation and we seek to provide services and create a work atmosphere that honors connections with each other and the outside world.
2. **WE DARE TO DREAM**. We believe that the seemingly impossible, just might be possible, and we look for these miracles every day.
3. **WE ARE INCLUSIVE** in that we provide an environment and deliver services which affirm the dignity, worth, and value of all individuals regardless of disability, socioeconomic status, race, ethnicity, nationality, sexual orientation, or anything that has the potential to set people apart from each other.
4. **WE PRACTICE COMPASSION**. Our goal is that every client, family, staff member, and professional that we encounter will know that we care and will walk away from interactions with us a better person and a stronger individual.
5. **WE VALUE THE EXPERIENCE** and continued professional development of all employees to provide the most effective treatment for each family.
6. **WE FOSTER EMPLOYMENT PRACTICES THAT BEST SERVE** the unique and comprehensive needs of each staff member so they can best serve the needs of our clients.
7. **WE REGULARLY AND SERIOUSLY EVALUATE** ourselves and our programs to ensure that we are truly fulfilling our mission in the best way possible. There are always ways to improve and we look for those ways through regular self-evaluation and program evaluation, looking honestly at our integrity, our support of others, our pursuit of knowledge, and our service to the community.
