4a (Code:) (Expenses \$ 795,097. including grants of \$ 77,700.) (Revenue \$ 0.)

Our Forests Aren't Fuel (OFAF) - Policy makers in Europe and the United States are
promoting the burning of wood as a renewable climate friendly alternative coal for
electricity generation under the guise of renewable energy even though the science
documents that burning wood releases more carbon than coal per unit of electricity
generated and further degrades forests.

Over the past several years, the forests of the Southern US have been the target of this
growing global market. In response, in 2013 Dogwood Alliance, launched the Our
Forests Arent Fuel campaign educating and activating citizens, policy makers and
industry on both sides of the Atlantic to stop the further expansion of this industry.
See Part III, Ln 4a statement

4b (Code:) (Expenses \$ 702,652. including grants of \$ 54,500.) (Revenue \$ 0.)

Forests and Climate (F&C) - The Paris Climate Agreement gave the world a charge:
decarbonize all energy sectors and simultaneously remove carbon dioxide from the air.
The best and most cost-effective technology we have to remove carbon from our
atmosphere right now lies in the power of forests. Standing forests are the natural life
support that we need to mitigate the worst impacts of climate change and protect those
most profoundly impacted, often low income communities and people of color. Logging
in the US releases large amounts of carbon into the atmosphere while simultaneously
degrading the nations forests ability to provide critical climate benefits.

Despite these facts, forest protection continues to remain on the sidelines of the national
See Part III, Ln 4b statement

4c (Code:) (Expenses \$ 468,467. including grants of \$ 59,000.) (Revenue \$ 0.)

Community Solutions (CS) - In 2022 we expanded our focus work to protect wetland
forests through the community conservation model which is an inclusive and strategic approach
of expanding wetland conservation, community organizing and environmental justice
throughout the US South. We continue to work to protect wetland forests in the US
South that span nearly 35 million acres across 14 states and are critical
for community health and safety.

Our community conservation model is advancing forest conservation through the lens of
environmental justice. Working in partnership with impacted communities in climate-
vulnerable locations, our work uses social and economic indicators, not just

<p>The Our Forests Aren't Fuel campaign continued to be a major focus of work in 2022 leveraging significant results. Despite the backdrop of an ongoing war in Ukraine and economic instability, state, national and international concern about industrial biomass grew significantly, as communities and government officials publicly challenged the industry's "renewable" and "sustainable" claims.</p>
-
<p>Over the course of 2022, we played a leadership role with our partners at the international level to disrupt the subsidies for biomass. Our work focused on targeting grassroots organizations and impacted communities in key member states (the UK, Netherlands and Denmark). We continued to meet with government officials, conduct outreach to activist organizations and provide information, evidence and stories of the impacts of the wood pellet industry on forests and communities to the media. This work led to expanded political opposition to biomass subsidies in the UK and the Netherlands. The UK government publicly debated biomass subsidies on the floor of Westminster for the first time. The Netherlands government passed a measure eliminating subsidies for biomass sourced from untruthful suppliers, specifically referencing the South's largest wood pellet manufacturer, Enviva.</p>
-
<p>North Carolina continued to be a top priority for our organizing in 2022. Our work with the local community in Robeson County to stop the Active Energy wood pellet mill resulted in a final decision on the part of the company not to build the facility. We are now organizing with community groups and leaders in NC where every wood pellet export mill is operating into a more coordinated state-wide effort targeting Governor Cooper to take executive action. We also have a robust network of organizations across the state actively coordinating on the international, national and state levels. We organized public turnout at the public hearing for Enviva's expansion in Ahoskie, which combined with our ongoing engagement with the NC Environmental Justice Advisory Board (EJAB) for DEQ resulted in the holding of a special session on the wood pellet industry attended by 60 people. The EJAB presented a strong case to NC DEQ related to disproportionate impacts and recommended further restrictions on the wood pellet industry.</p>
-
<p>We continued to build opposition to wood pellet mill expansions in the Gulf Coast region. We have several strong partners in this region who are actively engaging at the international, national and state-levels. We brought national and international attention to</p>

climate agenda and renewable energy policy in the US. Dogwood Alliances groundbreaking forest and climate program is designed to shift this dynamic, by elevating the climate, forest and community impacts created by industrial logging in the US, while providing conservation solutions that place the needs of those most impacted at the forefront.
-
Dogwood Alliance has continued to be a national leader, working at the intersection of forests, climate and justice. Our focus on deepening partnerships and strategic communications created opportunities to influence policy and policy makers at the state and national level.
-
In 2022 we also continued to elevate biomass/wood pellets and industrial logging as a national priority climate justice issue. We were featured in a CBS Morning News special investigative story that aired on Earth Day exposing the wood pellet industry's impacts on forests, climate and community health. The CBS story highlighted the Biden Administrations lack of action on the issue. Key objectives of this work was to educate the Biden Administration and to disrupt Big Greens' support for the forest industry's policy agenda at the federal level via the Forest & Climate Working Group.
-
In spite of the Biden Administration's stated commitment to prioritize climate action and environmental justice, policies passed at a national level over the past year provide major new subsidies for the expansion of industrial logging in direct contradiction to the best available climate science and without consideration of the negative community health, economic and climate resiliency impacts. We published an Op-ed in The Hill highlighting the inconsistency of Biden's commitment to address climate change and environmental justice and the Inflation Reduction Act's massive subsidies for wood energy markets and logging.
-
In 2022 we secured a commitment from EPA to engage other agencies in conducting site visits of communities impacted by the wood pellet industry in MS, GA, NC and SC. The agency is currently planning to do an investigation into the Drax facility in Gloster,

MS. Additionally, EPA Region IV is now doing a study of the impacts of the wood pellet industry. We launched a petition targeting EPA to take action on wood pellets at a press event/rally attended by 40 people from impacted communities across the rural South at the EPA Region IV offices in Atlanta, which garnered media coverage in the Atlanta Journal-Constitution and Atlanta Voice.
-
In 2022 we also launched The Nature Conspiracy, exposing TNC's backing of forest industry-friendly climate policy proposals. This led to an investigative article published in Grist as well as coverage on two nationally syndicated radio shows. It also led to several large foundations that fund TNC engaging the organization in ongoing dialogue about their collaboration with industry.

-
Our work in SC with the Pee Dee Indian Tribe and New Alpha Community Development Corporation in the Pee Dee Watershed has created a new narrative and strategy for advancing equity in protecting forests as a climate solution with community economic benefits. Against a backdrop of a Southern culture that has largely accepted the "working forest" landscape, Dogwood and our local partners are charting a new course that puts community-led forest protection at the center of our conservation agenda. We've developed a close working relationship with the SC Conservation Bank regarding leveraging state funds to purchase hundreds of acres of forests in the Pee Dee watershed, to be owned by the community and set aside for natural flood control and outdoor recreation. We supported the Pee Dee Tribe in developing and promoting their cultural, nature and outdoor recreation center and purchase of additional wetland forests.
