Annual Report
Fiscal Year Ending March 31, 2013

In FY 2013 the ASSE Foundation achieved major financial milestones, took advantage of technology and innovation, and continued to expand long-standing programs. By working smarter and looking ahead, we have taken concrete steps to plan for the future success and stability of our profession. As we continue broadening our slate of programs and increasing our influence, we thank our many supporters for investing in tomorrow.

Generosity from you, growth within the profession, safety for all – thank you for taking our motto to heart, and securing a better world for tomorrow.

Finances & Contributions
Total revenues were $964,808, consisting of: contributions, interest earnings, realized investment gains, silent auction & golf outing proceeds, and income from the scholarship and grant program. Donations totaled $703,450 making it the best year in the Foundation’s history. This is an 18.5% increase from FY 2012. Of this total, restricted fund revenues (programs earmarked for scholarship and research) totaled $483,867.

The following organizations supported us with leadership gifts at the corporate level:

• Visionary ($15,000+): Applications International Corporation, CNA Foundation, FabEnco Inc./FabEnco Founding Fathers Foundation, Georgia Pacific, Lancaster County Industrial Safety Council, Liberty Mutual Insurance, the Liberty Mutual Research Institute for Safety, the UPS Foundation, and URS Corporation.

• Counselor ($10,000-$14,999): Aon Corporation, Clarion Safety Systems, WorkCare, Inc.

• Champion ($5,000-$9,999): Flatiron Construction Corporation and ISNetworld

• Advocate ($2,500 - $4,999): California Governor’s SH&E Conference

• ASSE Regions & Chapters (30%) showed their support of the profession by donating an outstanding $124,600. Members joined in, with 22.6% contributing via their membership renewal form. Thanks to this easy way to give, the Foundation received nearly $150,000.
Leadership Development

The Foundation continued its support of students by underwriting the ASSE Future Safety Leaders Conference ($48,639), a program designed to mentor ASSE student members and prepare them for the transition from safety student to SH&E employee.

In FY 2013 we chartered and debuted our Next Generation Board, a committee of young professionals. This committee generates a mutually beneficial relationship between the ASSE Foundation and the young professionals of the Society. As ASSE’s next generation of leaders they will enjoy unique development and advancement opportunities while offering their perspectives and energies.

Research

The Foundation’s research agenda was advanced through funding the following initiatives:

- $12,000 was awarded to Michael Behm for his study “Analyzing Trends in Occupational Safety Problem Solving”.
- Under the Liberty Mutual Safety Research Fellowship program, $17,500 was awarded to Tzurei Chen of the University of Oregon, Eugene for her study on predicting fall risk in the elderly and Andrew S. Merryweather of the University of Utah for his study on hospital bed adjustments concerning fall-prone adults.
- $2,080 was awarded to the Center of Safety and Health Sustainability for research on global OHS reporting trends.

Education

Our most well-known effort, the scholarship and grant program benefited more than 100 students and professionals in the ASSE community. This is an increase of 11 awards from FY 2012. We awarded $184,443 to 84 students. In addition, we awarded 19 PE grants totaling $15,500, but recorded the expense to the following year due to the implementation of a new policy.

$104,295 was allocated to the restricted scholarship and professional education grant funds as required by the ASSE Foundation Restricted Fund Policy using interest earned in the investment portfolio ($86,668), but will not be reflected until next fiscal year.

A $1,750 grant was awarded to Montana Tech of the University of Montana under the James A. Oppold Fund, which supports universities seeking ASAC/ABET accreditation of their occupational safety and health programs.

The student paper award was presented to Oakland University senior Danielle Kaminski. She received $1,200 for her submission entitled, “Gulf of Mexico Deadzone”. Kaminski graduated last summer with a degree in occupational safety and health.
At Safety 2012 the Foundation raised nearly $235,000 from forward-thinking individuals, chapters, and corporations in just four days. In addition to the House of Delegates meeting where dozens of chapters and individuals contributed to the Foundation’s cause, the annual Silent Auction and Golf Outing together brought in nearly $26,000 to support the Safety Matters fund. With 96 items up for grabs in the Silent Auction, it proved to be a fun, fruitful event for the Foundation and raised $11,000.

The Golf Outing saw dozens of golfers from across the country on the greens of Fossil Trace Golf Club. $15,000 was raised thanks to the generous teams of golfers that spent a gorgeous day out on the fairway. A special thanks goes to Accuform Signs, Summit Training, and URS for defraying event costs with their generous donations.

The past year proved to be an exceptional one during the annual donor reception when David H. LaCook of FabEnCo presented the Foundation with $110,000, directing his gift toward an endowed $4,000 scholarship as well as the Safety Matters Fund.

Many thanks to everybody who participates in each of the Foundation’s programs and helps further safety.
In FY 2013 we introduced a **new logo**. The logo redesign updates our look, and is not only modern but also meaningful. We used the shield shape to show our connection to ASSE, and just as the three shields overlap and intersect to form another shield at the center of our logo, the Foundation itself is essentially built out of components of ASSE. When the three shields are placed together, they combine into a central, most prominent shield. Unified as such, this strongest shield showcases the collaboration and nurturing side of the Foundation.

The icon is the focal point of the logo, and can be viewed two ways. First, you might see a person reading a book, referencing our successful scholarship and grant program, which has to date awarded more than $1.5 million to deserving students and professionals. Second, you might also see a lantern, pointing more broadly to the Foundation’s overarching orientation toward lighting the way to a safer tomorrow.

Also, in FY 2013, we implemented a new **scholarship management system**, moving everything online. By automating our entire program, we’ve reduced likelihood of error, facilitated on-line ranking from committee members, created a more objective review process, saved staff time, and best of all, made it easier for students to apply. The increased ease and efficiency of this system will allow us to keep expanding the reach of this treasured program.

The Foundation’s planned giving program, the **Legacy Trust**, continues to grow and will sustain the Foundation into the future. Members can name the Foundation in their wills or as a beneficiary to life insurance policies or retirement assets. As of March 2013, the program had 18 members. This program is another way for us to prepare for tomorrow by investing today.

---

**Fiscal Year 2014 Projections**

As we look to FY2014, the ASSE Foundation will offer more than $200,000 in scholarships and professional education grants for students pursuing degrees in SH&E and to safety professionals working to expand their professional credentials. We’ll continue to process applications through our online scholarship management system, and expect applicant numbers to increase.

We will underwrite the ASSE Future Safety Leaders Conference in November 2013. Expanded accreditation activities will continue as we work with the Applied Sciences Commission (ASC) to develop and implement programs for schools seeking ASAC/ABET accreditation.

The Liberty Mutual Research Fellowship Program will once again provide two fellows the opportunity to spend time at the Liberty Mutual Research Institute for Safety. In addition, the program will be reevaluated in order to ensure the best possible allocation of our funding. Funding is increasing from $19,000 to $30,000, thanks to the outstanding generosity of Liberty Mutual Insurance.

The Next Generation Board’s first full year will be one making plans and trying out new ideas. As this group grows and coalesces, we look forward to the inputs and energy they will contribute to the mission of the Foundation.

Areas of focus for FY2014 include the **Family Scholarship Fund**, our revamped **Research Committee**, and reaching out to our **global mem-**
The Family Scholarship Fund is a new initiative in development by former Assistant Secretary of Labor John Henshaw. Our Research Committee is preparing to expand the capabilities of the program, paving the way for more impactful and beneficial discoveries. Taking up the mandate in our mission, we aim to establish the Foundation as a thought leader in the safety community. We intend to reach out to the global member and will be exploring various avenues towards that goal.

Finally, the key initiative of FY 2014 will be an expanded focus on the Safety Matters Fund. Our signature fund, the Safety Matters Fund can be considered the research and development department of the Foundation, as well as a source of start-up capital to introduce new programs. Just as smart corporations invest in innovation and technology, so do we. Investment in the Safety Matters Fund ensures we will have the resources to continue improving and expanding our programs. Building capacity for the future has been a goal for me as Board Chair and I appreciate you joining me in FY 2014.

FY 2013 was an exciting, record-breaking year. The future of safety was strengthened by your generosity. We are grateful you're a part of our community, and we look forward to partnering with you in the years to come. Please come along with us as we stake out your place in the culture of safety, placing the safety profession at the crossroads of healthy workers and a flourishing environment.

Because safety matters,

Fay F. Feeney, CSP, ARM
Board Chair, Fiscal-Year 2013
“I am so very honored and grateful to ASSE for helping my student career and providing the enthusiasm and encouragement I needed to carry on my research work as a PhD student, for letting me know that I have the potential to succeed in my career as a health professional, and for supporting my goal of improving the health and safety of workers in developing and underdeveloped countries.”

Kanistha Chatterjee, Clarion Safety Doctoral Scholarship
“The scholarship from the Foundation has helped me grow and strengthen as a student in the safety field. Since I have been awarded the CNA Foundation Scholarship, I have been able to network with many employees at the CNA as well as build relationships with them to further my career in the future.”

“Occupational Safety was something I was certain would be a good choice when entering college, but I did not realize the true amount of untapped information and knowledge that would reveal itself. The inspiration that came from the generous recognition of the Society only fueled my desire to excel in my studies and the safety profession. It made me feel empowered to know that my accomplishments were not going unrecognized.”
