Since 1990...

$2,440,180 in scholarships awarded

$235,000 in Impact Scholarships

$300,000 research project on fatigue

970 scholarship recipients

15 grants for ABET program accreditations

$191,955 in professional education grants
Your Generosity. Their Success.

There is an inside joke when volunteering for the ASSE Foundation that the song lyrics from Hotel California capture perfectly, "You can check out any time you like, but you can never leave."

You never leave because you become a Friend of the Foundation for life. Leading the Foundation board offered me a chance to give back to a profession that’s been more rewarding than I ever could have imagined and to a Society that has been with me every step of the way.

And that’s what I believe the Foundation does for students entering the profession and professionals interested in advancing their skills. In fiscal year 2017, I am proud to report the Foundation awarded a record $303,000 in scholarships and grants to 116 students and members this April, a 10 percent increase over last year. Specifically, 94 scholarships were awarded to 90 students representing 48 universities. Another 26 grants were awarded to professionals advancing their credentials in safety.

None of this can be done without the generous support of our robust network of corporations, ASSE communities and individuals who make these programs possible. They want to make a difference in the lives of our students and members and we, as a Society, can’t thank them enough for their commitment.

Our work is never done. In the coming year, you will hear more about the exciting research the Foundation has sponsored on fatigue in the workplace by University at Buffalo Prof. Lora Cavouto and her team. The research is studying how bending, lifting and other physical demands in a manufacturing setting may impact employees by using wearable technology (such as a FitBit) to measure performance on the factory floor.

And of course, you will be hearing from us throughout the year as we continue to build on the momentum and success stories you helped create. Thank you for letting me be a part of this story. Now let’s review what happened over the last year.

Darryl C. Hill, Ph.D., CSP
Board Chair, Fiscal Year 2017
Finances and Contributions

Total revenues were $936,268 consisting of contributions, interest earnings, realized investment gains, income from the scholarship and grant program as well as the golf event and raffle. This is a 9.8% decrease from the previous year primarily due to lower contributions.

Total expenses were $796,599 and consisted of program expenses of $493,929 (scholarships, professional education grants, fellowships, research grants, funding for the Future Safety Leaders Conference, fees expensed from the scholarship program, a grant for the Human Capital initiative, and funding for the Next Generation Board initiatives) and operational expenses of $302,669 (software & technology fees, conference activities, marketing & promotions, meeting expenses, printing & postage, management fees, investment and banking fees,). Total expenses were up by 5% from the previous year due to increased spending on behalf of the research program. Net income was $139,669 before unrealized market gains. Net assets increased by $532,766 to $5,452,163. This reflects the net income and unrealized gains on the portfolio.
Donations totaled $743,562. Of this amount, restricted fund revenues (programs earmarked for specific programs) totaled $384,943 (51%).

This broad-based support comes from the ASSE Communities, its members, their families and corporate donors. Nearly 40% of ASSE Chapters invested in the Foundation, giving nearly $180,000. Individual donors, including the 21% of members who give via dues, contributed nearly $290,000.

The following organizations supported us with leadership gifts at the corporate level:

**Visionary ($15,000+)**

- ASSE
- Applications International Corporation
- BCSP
- Béchtle
- Liberty Mutual Insurance
- ProcessMAP
- SOUTHERN COMPANY
- UPS

**Champion ($5,000-$9,999)**

- CNA
- FCA
- Parsons
- SAFE START
- WorkCare

**Advocate ($2,500-$4,999)**

- ISN
- SPAN Exam Prep

**Contributor ($1,000-$2,499)**

- SUMYMCA International

Scholarships

Our scholarship and grant program continues to grow; this year we awarded an unprecedented 94 scholarships totaling $281,750 to 90 students, an increase of 10% from the previous year. We supported students at 48 different universities and in every region.

Thanks to the generosity of Applications International Corporation, Bechtel and BCSP, we continued to offer Impact Scholarships. Impact Scholarships are awards of $10,000 or more, designed to cover a significant portion of one year’s tuition expense and make a life changing difference in the ability of OSH students to complete their educational goals.

New Awards in 2017

- BCSP Impact Scholarship ($10,000)
- United Rentals Scholarship ($4,750)
- Kyle B. Dotson Leadership Scholarship ($3,000)
- Archie Moore Scholarship ($1,000)
- Dr. Daniel Della-Giustina Greater West Virginia Chapter Scholarship ($1,000)
- Western Pennsylvania ASSE Future Leaders Scholarships ($1,000)

Professional Education Grants

Our Professional Education Grant program also expanded this year, adding two new awards for members of the safety community seeking professional advancement through certification, conferences, seminars, and similar activities. We awarded $21,915 to 26 working professionals. We’re proud to support motivated, dedicated professionals from 21 ASSE chapters as well as the global safety community.

New Awards in 2017

Greater Boston Chapter Professional Education Grant ($1,500)
Daniel Jay Snyder Professional Advancement Grant (sponsored by SPAN) ($1,000)
Future Safety Leaders Conference

In November 2016, the annual Future Safety Leaders Conference took place in Oakbrook, Illinois and brought 150 leading safety students together for two days of networking and leadership development. Attendees had the opportunity to learn from today’s safety experts regarding a variety of skills in management, teamwork, and technical knowhow. In addition to resume critiques, public speaking and how to get the most out of ASSE, representatives from safety-oriented companies conducted mock interviews and set up booths where attendees learned about their companies and job opportunities. A great big shout out to our sponsors for making this program possible: BCSP, Liberty Mutual, CNA, FCA, ProcessMAP, and SPAN.
Next Generation Board

The Foundation’s Next Generation Board (NGB) continues to showcase unprecedented talent and excellent leadership. They’ve advocated for the Foundation at chapter meetings, assisted with Foundation special events such as the golf outing during Safety 2016, and are spearheading new initiatives for students and members alike. The 2017 Future Safety Leaders Conference will include the NGB’s new Innovation Award for students who bring insight to the safety community and they’re also planning a new 5K “fun run” to be held at Safety 2018 in San Antonio.
Fatigue Research

We’re rounding out the second year in our three-year study where Lora Cavuoto at the University at Buffalo is developing sensor technology to detect fatigue levels in individuals and prevent avoidable workplace accidents. Lora and her team continue to make groundbreaking advances in the development of wearable sensors that can alert individuals who are approaching unsafe levels of fatigue. This project, formally titled “Advancing Safety Surveillance using Individualized Sensor Technology,” will help workers across a wide range of industries, such as transportation or manufacturing, prevent avoidable accidents due to fatigue, a common condition that leads to an unnecessary number of accidents each year.

Special thanks to Liberty Mutual for donating $40,000 to this important project.
Liberty Mutual Research Fellowship

During the summer of 2016 we partnered with Liberty Mutual to provide fellowships for two individuals to spend 12 weeks at Liberty Mutual’s Research Institute for Safety. Megan France of the Massachusetts Institute of Technology was selected to study organizational safety issues specific to New Jersey Transit, which translated to all sociotechnical organizations. Ashleigh Tran from the University of Kansas used her time to analyze the impact of various distractions on drivers. The results from both studies helped to further the researchers’ work and the safety community’s technical knowledge.

The Human Capital Project

The Foundation Board approved a $25,000 grant on June 24, 2016 to co-fund a Human Capital study by The Labor and Worklife Program at Harvard Law School, which will benchmark human capital policies including safety at 2,000 global corporations. The study will help draw important connections between human capital and corporate financial performance while examining global corporate disclosure of human capital policies, practices, and outcomes, including those relating to OHS.
Beginning in September 2015 and culminating in a celebration of the ASSE Foundation’s 25th Anniversary at Safety 2016 in Atlanta, ASSE regions and chapters were invited to participate in our 25th Anniversary Challenge. We called on members of the safety community to give to Safety Matters, our signature fund. Regions that showed the greatest increase in participation were awarded with funds to establish awards for their region’s members. More than $400,000 was raised for Safety Matters and Regions VIII, III, and VII claimed top prizes for the challenge.

**Region VIII**
Increased participation by 101%. First place prize of $32,117. Region VIII plans to establish grants for regional leaders to attend ASSE’s annual Leadership Conference.

**Region III**
Increased participation by 63%. Second place prize of $20,073. Region III plans to establish scholarships and grants for Region III members.

**Region VII**
Increased participation by 35%. Third place prize of $8,029. Region VII plans to establish scholarships and grants for Region VII members.
Safety 2016

During Safety 2016 the safety community joined together to raise over $100,000 for Foundation programs. On Sunday, June 26 nearly 100 golfers took place in the 10th annual Safety Matters Golf Outing held at the Stone Mountain Golf Course and raised $22,000 for Safety Matters. During the House of Delegates meeting that afternoon, Chair Michael Murray shared the Foundation’s progress with ASSE’s leadership and encouraged dozens of chapters to stand up together and show their support, many taking part in the final “lightning round” of the 25th Anniversary Challenge. Later that week nearly 200 proud friends of the Foundation joined us for our annual Donor Reception, enjoying time with colleagues for a celebratory evening.

Thank you to everyone who attended Foundation events in Atlanta! We’re happy to have such a great community of friends and supporters!
Thanks to Friends of the Foundation
