A year of bravery among new and lifelong friends.

Financials

Andrea will be back in 2018 too.

The financial data above is presented graphically. The data represents the financial performance of the organization over the past three years. The financial highlights include the year-end balance sheet, income statement, and cash flow statement. The organization has consistently shown a positive net income and healthy cash flow, indicating strong financial health. The organization has also been able to maintain a stable level of liquidity, ensuring that it can meet its short-term obligations. The financial data is crucial for stakeholders to understand the organization’s financial position and to make informed decisions.
