COMMUNITY AND CHILDREN IN CRISIS INC

This report represents COMMUNITY AND CHILDREN IN CRISIS INC’s responses to Charting Impact, a joint project of BBB Wise Giving Alliance, GuideStar USA Inc, and Independent Sector. Charting Impact uses five simple yet powerful questions to encourage strategic thinking and help organizations share concise information about their plans and progress toward impact.

Mission:
We are a charitable organization dedicated to working with children, families, and their communities in India, Haiti and Honduras to reach their full potential. We provide assistance to children and families affected by disasters and conflict, partner with communities for long-term solutions to alleviate poverty, and advocate for justice on behalf of the poor. We pursue this mission through holistic commitment to: * Providing Homes for Children * Improving Access to Healthcare * Providing Micro Financing * Creating Economic Opportunity * Establishing Agricultural Program Our community development approach empowers children and families to break the cycle of poverty and reach their potential.
The content of this Charting Impact Report is the sole product and responsibility of COMMUNITY AND CHILDREN IN CRISIS INC. This report does not in any way represent an endorsement from Independent Sector, BBB Wise Giving Alliance, or GuideStar, nor does it represent fulfillment of the BBB Wise Giving Alliance’s Standards for Charity Accountability. 1. What are we aiming to accomplish?
Every child deserves loving parents and for the children that do not have them, we seek to love and care for them. The home is one building with three separate levels providing dorms, bathrooms, a kitchen, a library, study hall, and guest rooms. The home hopes to add another room for a computer lab.

2. What are our strategies for making this happen?
Our primary goal is to provide a home for children that do not have a home. We achieve this by providing the child with a loving family. Most importantly, our caregivers continue to teach and be living examples of the gospel as they train the children to be Godly men and women.

3. What are our organization's capabilities for doing this?
Education is an important facet of the work that we do; we believe that it gives children the power of possibility, and the power to rise about the poverty level. Altogether, the children go to three different schools, where they must walk or take public transport. Eventually, we plan to build our own school to continue shaping the lives of children on our premises. However, we need your help to do this. Consider joining us as we work to support orphan care in India.

4. How will we know if we're making progress?
While achieving out goal of providing for the needs and education for the 146 children in our care is more of a long term objective, we can very quickly see that wither progress is being made or not. Once each child is fully sponsored then we will have achieved our main goal. however, we still need to raise the money need to cover operation coasts. These costs involve salaries for the staff, building projects and maintenance of the facilities

5. What have and haven't we accomplished so far?
We have successfully raised enough to build our first orphanage and we currently provide care for 146 children. At present, we are seeking to raise enough support to provide care and educations for 146 children.
